To Whom It May Concern,

Hoboken Realty has worked with All-American Brother's Pest Control for the past 7 years. During the time, the owners, Greg and Ryan, have been extremely diligent in resolving any pest related issues at the many properties that we manage.

All of the work we have requested to have done, has always been handled in a time sensitive manner and their response time via telephone has always been immediate.

We are extremely happy with their service and we will continue to work with Greg and Ryan into the future. I would highly recommend All American Brother's Pest Control to any management company looking to enhance and improve their pest control service.

Sincerely,

Kelly McLaughlin

Hoboken Realty Management Co Inc.
