

Acquiring an Instrument

Option 1: Borrow an instrument from the school

- We will assign instruments by Lottery. (During class)
- There are a limited number of instruments of each kind.
- For example: there are no alto saxophones available
- Student names will be placed in a “hat” and drawn out for the students to claim their first or second choice instrument, and if those are not available, they can choose option 2.

Option 2: rent an instrument from the music store

- There are several local stores with great rental pricing. These instruments are good quality and come with insurance options.
- If a student would like to secure their instrument of choice before the lottery, they may rent as soon as they leave campus from trials.
- If after the lottery an instrument of choice is not available, the student can rent from the store.
- The store has a rent-to-own program. This allows to you work towards the owning of the instrument.
- See attached page for store information.

Option 3: use a family owned instrument

- Is there an instrument in the back of the closet or on a shelf somewhere not being used?
 - Get it assessed at the music store.
 - If it is outside of the instrument selections made with Mrs. Newland, ask if it can be used or not.

NOT RECOMENED: Purchasing an instrument

- Your child is a beginner, they may change their mind.
- Instruments are expensive.
- Cheap instruments will break easily, and repairs are costly. Some brands are even refused by repair technicians to be worked on.
- Do NOT purchase an instrument from Amazon.

Supply List

Abbreviated list from band handbook

- Bb Tenor Saxophone
 - Box of 3 size/strength 2
 - Box of 10 size/strength 2.5

Music Stand for at home practice: optional but highly suggested; there are wire stands and metal stands

Instrument Storage at Home:

- Students should store instruments in a safe place. Temperatures should be consistent.
- Do not store instruments near the kitchen if possible, to avoid cases smelling like food.
- Instruments should NEVER be left in a car for extended periods of time. The temperature changes can harm the instrument.
- Keep instruments out of the pathways and where younger siblings could reach.
- All maintenance needed on the instrument during distance learning is the responsibility of the student to take care of. If repairs are needed, please contact a music store for repairs.
- Instruments are to be in full working order for every class session. Notify Mrs. Newland if there is an issue BEFORE class starts.
- Follow all instrument care instructions for your instrument. Doing an improper cleaning can harm the instrument. Cleaning videos will be provided by Mrs. Newland, do NOT clean until you have been shown the correct way.
- Alcohol wipes and swabs are okay for mouthpiece cleaning.
 - On Flutes, Clarinets, and Saxophones, please do NOT wet the pads on the underside of the keys.

Music Resources
