HIGHWAYFLAGGERS.COM, PORTLAND, OREGON, U.S. A.

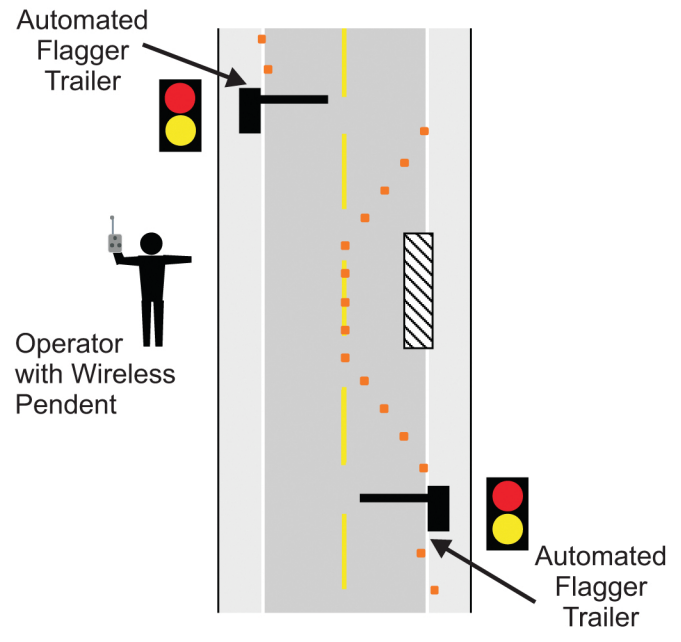

The Automated Flagger AF-100 is a Red/Yellow Lens device that meets the 2009 Federal Highway Administration MUTCD Section 6E.04 specification. The device can be used in a Single or Two Trailer operation.

### Typical One Trailer Operation

### Typical Two Trailer Operation

The Automated Flagger AF-100 is a portable system for work zone traffic control.

The combination of Red/Yellow Signal Lights and Gate Arm offers the highest visibility for traffic.

The AF-100 offers unique opportunities including: labor savings, higher visibility, removes humans from the roadway, and reduces human error liability.

- Typical applications include:
- Water Line installation/repairs
  - Power Line installation/repairs
  - Tree Trimming
  - Highway Construction
  - Haul Roads
  - Pedestrian Crossings
