

E-Class Mark III

3 Dimensions of Value

The E-Class *Mark III* is a family of compact desktop thermal printers that are designed for a wide variety of industries and applications that require a reliable and cost effective barcode printer. Datamax-O'Neil applied its industrial printer expertise to provide customers with an entry level printer that has the features and reliability normally found in more expensive printers. The E-Class *Mark III* is affordable to own, easy to use and economical to operate.

We've made the E-Class *Mark III* thermal barcode printer easy to use with quick loading media and an interactive LCD screen. Users will also notice a substantial reduction in their daily operational costs thanks to the E-Class *Mark III's* larger media and ribbon roll capacity. The E-Class *Mark III* is one of the best values on the market. It is competitively priced with a proven design and reliable performance that will continue to operate long after other barcode printers have failed.

Workstation

Intelligent Compact Industrial Thermal Printer - w1110

The Workstation Series is the newest generation of desktop printers from Datamax-O'Neil. The w1110 compact desktop printer offers an industry leading design and standard features found on the company's Performance Series printer line, including Ethernet 10/100, 50 resident/scalable fonts, 300dpi printhead for superior print quality and industry standard PCL5e language. The compact design provides reliability and durability for environments requiring a small footprint for the most efficient output.

The Workstation Series are designed for a wide variety of industries and applications that require a small yet powerful printing solution. The Workstation Series' superior print quality is ideal for applications such as pharmaceutical, product labeling, asset management and shelf labeling.

The compact thermal printers can dramatically reduce costs by streamlining operations, increasing productivity and managing your important assets.
