Industrial Printers

CL-E720

Simple, reliable and energy efficient tabletop printing

The CL-E720 table top printer is packed with features usually reserved for higher cost machines. Designed and built for easy operation and service, it includes the proven Citizen ARCP™ mechanism, which guarantees sharp, high quality print results.

CL-E720DT

Simple and efficient tabletop printing

The CL-E720DT table top printer is packed with features usually reserved for higher class machines. Designed and built for easy operation and service, it includes the proven Citizen ARCP™ mechanism, which guarantees sharp, high quality print results. When only Direct Thermal printing is required, the CL-E720DT is ideal.

CL-E730

High resolution in your business

The CL-E730 table top printer is packed with features usually reserved for higher class machines. Designed and built for easy operation and service, it includes the proven Citizen ARCP™ mechanism in combination with 300 dpi, which guarantee sharp, high quality print results.

CL-S700

Industrial printing with added speed and capacity

Our CL-S700 series is designed for ease of use; the metal mechanism opens vertically to a full 90° to allow for easy ribbon access, while integrated ribbon control and positioning support precision printing on even small or specialist media. The CL-S700 also comes in a direct thermal only model.

CL-S700DT

The right place to start for industrial printing

This direct thermal industrial printer incorporates a wide range of features and is capable of producing excellent definition from an advanced design of print head. Featuring Citizen's unique Hi-Open™ case and Hi-Lift™ printer mechanism, significantly reducing the overall footprint of the unit, media can be changed in as little as 10 seconds.

CL-S700R/CL-S703R

Internal Peel & Rewind

The CL-S700R and CL-S703R (300dpi) are part of our CL-S700 series with the added internal peeler and rewinder. The CL-S700 Series are designed for ease of use; the metal mechanism opens vertically to a full 90° to allow for easy ribbon access, while integrated ribbon control and positioning support precision printing on even small or specialist media.

The CL-S700R Series also come with the option to print in both direct thermal and thermal transfer modes.

CL-S703

High speed, high resolution, heavy duty printing

Part of the CL-S700 family of printers, the CL-S703 delivers an outstanding 300dpi resolution for pin-sharp printing. Tough, robust and built to withstand the rigours of most industrial, warehouse and logistics environments, the CL-S703 is built to provide years of trouble-free use.
