## **PRZEWALSKI'S HORSE**

1990s Central Florida Zoo

The **PRZEWALSKI's HORSE** is a rare and endangered subspecies of wild horse native to the steppes of central Asia, specifically Mongolia. Sadly, the **PRZEWALSKI HORSE** became extinct in the wild in 1968: the total world's population of **PRZEWALSKI's HORSES** are all descended from around 15 captured around 1900. A cooperative venture between the Zoological Society of London and Mongolian scientists has resulted in successful reintroduction of these horses from zoos into their natural habitat in Mongolia, and there are currently an estimated 1,500 **PRZEWALSKI's HORSES** in existence.

The moldset for the **PRZEWALSKI HORSE** was made in the 1990s by Jim Irwin specifically for use at the Central Florida Zoo, when the Central Florida Zoo got a **PRZEWALSKI HORSE**. The new moldset was necessitated because there was no other suitable horse mold. The **PRZEWALSKI HORSE** has also been run at LOWRY PARK ZOO, and thus that is the engraving that the moldset currently holds and the encription that each Club-A-Rama member's **PRZEWALSKI HORSE** includes.

Disclaimers: The color and/or exact condition of the MOLD you get in the CLUB-A-RAMA may or may not be as shown. Not for children under 3.
