~~AND REPEALING ORDINANCE NO. _____ OF SAID CITY, PASSED AND APPROVED FEBRUARY _____,~~

1049.

BE IT ORDAINED BY THE BOARD OF ALDERMEN OF THE CITY OF DIXON,

MISSOURI:

Section 1. That consent, permission, authority and approval of the City of Dixon, Missouri, is hereby granted Missouri Central Natural Gas Company, a Missouri corporation, hereinafter designated as grantee, its successors or assigns, for a period of twenty years from and after the acceptance of this ordinance by the grantee as hereinafter provided, to enter upon the streets,

avenues, alleys, bridges, public ways, lands and places within the corporate limits of the City of Dixon, Missouri, as the same now exist or may hereafter be extended, and therein or thereon to construct, lay, relay, extend, maintain and operate a system of pipes, valves and other equipment and appurtenances and to distribute therein and sell therefrom, manufactured gas, natural gas, vaporized liquid petroleum gas or a mixture of any or all of these gases to the said City and to the inhabitants thereof for heat, power or any other purpose, and to construct, operate and maintain within said City a works or plant for the manufacture and storage of artificial gas or for the storage, conversion and control of natural gas or liquefied petroleum gas.

Section 2. The rights and privileges provided for herein are given to the grantee upon the condition that natural gas shall be made available to the inhabitants of the City not later than two years from the date that said natural gas shall become available to the grantee for distribution to the said inhabitants, subject only to delays incurred due to reasons beyond the control of the grantee; but the Board of Aldermen may, by suitable resolution or ordinance, extend the time for making gas available in said City based on reasonable requests of the grantee, and such extension of time shall not be arbitrarily withheld. Should the grantee be prevented by legal process from commencing or prosecuting to completion the distribution system or plant, any delay caused thereby shall be added to the time stated herein. Should it develop that natural gas does not become available to the grantee within the above period, the grantee shall have the right to resurvey the feasibility of the use of vaporized liquefied petroleum gas, and within one year thereafter, have all rights under this franchise to proceed with the construction

and installation of such gas system within the City. *It is mutually agreed that should the grantee not begin construction within a period of 5 yrs. this agreement may be terminated at the option of the city.*

Section 3. The grantee shall avoid cutting pavements to the greatest practicable extent, but whenever the grantee in the construction, maintenance or

operation of the system or for extensions to the original system shall cut into or take up any pavements or shall make any excavations in streets, avenues, alleys, public ways, lands and places in said City, the same shall be done in a manner so as to cause the least interference with the use of the streets by the public. Such construction or maintenance work shall be done entirely at the risk and expense of the grantee, and the grantee shall provide such safeguards as may be necessary to warn persons and to avoid injury to persons or damage to property during such construction work. All excavations shall be carefully back filled, obstructions removed and surfaces of traveled ways replaced or repaired, so that such surfaces will be left in condition as good as they were before being taken up. All such street work shall be done to the satisfaction of the responsible officer or officers of said City, and in the event the grantee shall fail to comply with the provisions of this section after having been given reasonable notice, the City may do such work as may be required to properly repair or replace such pavement taken up by the grantee and the cost thereof shall be paid to the City by the grantee. Nothing in this section shall be construed as implying that the City police powers with respect to its streets and alleys shall have been impaired or surrendered by reason of granting this franchise.

Section 4. The grantee shall hold the City harmless from any and all claims and demands for damages on account of injury to persons or damage to property arising from negligence of the grantee, its agents or employees in the construction, maintenance or operation of the gas system. To implement the above covenants, the grantee agrees that it will defend in the name of the City any action at law or suit in equity so arising and the City agrees to furnish the grantee, promptly, certified copies of all claims, notices of suits or other legal process.

Section 5. The grantee shall, from time to time, make extensions to its gas distribution system to serve consumers not on its system; provided, however, that such extension shall not be required of the grantee if it exceeds sixty-five (65) feet in length for a customer using range and water heater or one hundred (100) feet in length for a customer using a space heater equivalent to a heater required for a five room house, and provided further that such extension or extensions shall not be required of the grantee unless and until each applicant for service requiring the extension shall sign a contract agreeing to provide piping and utilization equipment in his residence or place of business, and agreeing to use and pay for gas for a period of two years.

Section 6. The system constructed by the grantee shall be a modern system of ample capacity to supply the anticipated needs of the City and its inhabitants and shall be designed so that the system capacity may be greatly increased with a minimum of additions to the original system. The grantee shall at all times use due diligence to maintain an adequate and continuous supply of gas at proper pressure and of such uniform composition that burners of utilization equipment will function properly when adjusted properly for the type of gas supplied. The heating value of any gas supplied shall not be less than 525 B.T.U. per cubic foot and the heating value may be increased above this value by the grantee upon thirty (30) days' notice to the said City and the consumers of gas from the grantee's system. Should the grantee at any time change the type of gas or the heating value thereof, the grantee shall without charge make changes, if any are required, in the orifices of burners owned by consumers.

Section 7. The grantee shall, at its own expense, install and maintain a standard meter prover for the purpose of testing the accuracy of consumers' meters. Whenever any meter is tested and proved to be more than three per cent (3%) above or below true registration, an adjustment shall be made to correct such error in the consumer's two preceding monthly bills.

Section 8. The rates to be charged shall be fixed by the City's governing body or any State Regulatory Board as provided by law. The grantee shall not require any deposit from consumers who have established a credit rating with the grantee but shall have the right to require consumers who become delinquent in their accounts, or from transients or non-house owners, to make a reasonable deposit as a guarantee that their accounts will be fully paid promptly. Deposits shall draw interest at the rate of four per cent (4%) per annum, payable annually, and whenever gas service is discontinued, the deposit shall be returned to the consumer upon payment in full of his account.

Section 9. In consideration of the granting of this franchise by the City, the grantee agrees to pay to the City an annual franchise tax to be computed in the following manner:

(a) For the first full calendar year of operation of the gas system, said franchise tax paid to the City shall equal one per cent (1%) of the net sales of gas to residential and commercial users.

In any rate making negotiations, the value of this franchise shall be one dollar (\$1.00).

Section 11. The franchise as set forth herein shall not be exclusive.

Section 12. This ordinance shall be in full force and effect from and after its passage by the Board of Aldermen subject to its approval by the qualified electors of said City at a special election to be called for that purpose as hereinafter provided and upon written acceptance of the provisions thereof by the grantee to be filed with the City Clerk of said City within forty-five (45) days from and after its approval by the electors. The date of acceptance by the grantee shall constitute the effective date of this franchise.

Section 13. A special election is hereby ordered to be held in the City of Dixon, Missouri, on Tuesday, April 5, 1949, at the same time as the general city election to be held in said City on said date for the purpose of submitting this ordinance and the franchise herein granted to the qualified voters of said City for their ratification or rejection.

To implement the above covenants, the grantee agrees that it will defend in the name of the City any action at law or suit in equity so arising and the City agrees to furnish the grantee, promptly, certified copies of all claims, notices of suits or other legal process.

Section 5. The grantee shall, from time to time, make extensions to its gas distribution system to serve consumers not on its system; provided, however, that such extension shall not be required of the grantee if it exceeds sixty-five (65) feet in length for a customer using range and water heater or one hundred (100) feet in length for a customer using a space heater equivalent to a heater required for a five room house, and provided further that such extension

or extensions shall not be required of the grantee unless and until each applicant for service requiring the extension shall sign a contract agreeing to provide piping and utilization equipment in his residence or place of business, and agreeing to use and pay for gas for a period of two years.

Section 8. The rates to be charged shall be fixed by the City Council or any State Regulatory Board as provided by law. The grantee shall not require any deposit from consumers who have established a credit rating with the grantee but shall have the right to require consumers who become delinquent in their accounts, or from transients or non-house owners, to make a reasonable deposit as a guarantee that their accounts will be fully paid promptly. Deposits shall draw interest at the rate

of four per cent (4%) per annum, payable annually, and whenever gas service is discontinued, the deposit shall be returned to the consumer upon payment in full of his account.

Section 9. In consideration of the granting of this franchise by the City, the grantee agrees to pay to the City an annual franchise tax to be computed in the following manner:

Section 10. Pertinent books of account and reports of the business of the

grantee in the City shall be available in the City at all reasonable times to responsible officers appointed by the City Council or to public accountants employed by them to audit the books of the grantee for the purpose of establishing fair and equitable rates for gas. In any rate making negotiations, the value of this franchise shall be one dollar(\$1.00).

Section 11. This ordinance shall be in full force and effect from and after its passage by the Council, its approval by the qualified electors of said City at a special election to be called for that purpose and upon written acceptance of the provisions thereof by the grantee to be filed with the Council of the said City within forty-five (45) days from and after its approval by the Council and the electors.
