

I took my boss's money – and I'm giving it to YOU!

Most farm papers cost you money,
but *Grainews* MAKES you money.

And to prove it, I'm going to send
you your first \$5 cash – **FREE**.

And I'll even send you a **FREE**
wallet to keep it in.

Now, please read the rest of this letter to
find out what the heck I'm talking about ...

Dear Money Saving Farmer,

Over the years *Grainews* has had its fair share of articles about all the ways to use duct tape on your farm. But the other day I came up with a way even our publisher hadn't thought of ... and that's a good thing, too, because if he *had* thought of it first – before I spent all his money – I would never have been able to make this offer.

But now it's too late – *I already spent my boss's money* -- and YOU get to keep it.

Best of all, with *Grainews* you'll also save money. In fact the other day I sat down with Lyndsey, the editor, and ran through a batch of articles from a past issue.

How much would you spend, to save \$33,000?

We figure we found over **\$33,000-worth** of money-saving (and making!) articles – all farm tested and ready to use.

A rash claim? Not when you do the math. My figures are estimates for an average Western Canadian mixed grain and livestock operation. Crunch the numbers for your own operation.

- What to do when your *herbicide doesn't work* (\$10,000 to \$20,000)
- 4 things you must (and must not) do when handling pulse crops (\$1,000s in *reduced spoilage* and dockage)
- How to make a 24% to **64% return** on your fertilizer dollar with oats – yes, oats! (\$5,200+)
- 9 Ways to cut your herbicide costs (\$5,000 to \$25,000 saved)
- 5 Fast ways to build emergency grain storage (\$10,000) or more ...
What's a load of your favourite crop worth to you?)
- How to chop 75% off the cost of brakes for your trucks (\$750 or more)
- 4 Steps to successful off-farm investing (\$thousands in extra retirement income)
- 6 Tips for harvesting beans (\$10,000 to \$20,000 or more depending on where you farm)
- 5 Ways to protect your valuable computer files from *hackers* (\$100s if you back up regularly, tens of (\$) thousands in wasted time – or worse – if you don't)
- 5 Ways to control brush in pasture (\$1,000s in lost gain per acre saved, depending

(Will this get
me fired?
I don't know... yet)

Please turn page ...

on the quality of your pasture)

- How to get badly needed parts – *faster!* (\$1,000s in reduced downtime – What’s an hour of your time worth during harvest?)
- 2 Of the most serious problems with hydraulics – *and how to fix them* (\$500 to \$1,000 or more)
- Cattlemen (and women) : Slash your feed bill by over a third ... the secret to low-cost grazing – even in winter (\$1,000s)
- Wet soil? How winter wheat could save your bacon ... (\$10,000 and up)

Of course, not every example will apply to your individual operation but I think it’s safe to say your subscription price is **worth at least 1,000 times** that amount in money saved or earned – and I’m going to prove it by sending your first \$5 of savings to you FREE – in cash – in your own *Grainews* duct tape wallet, from Ducti (designer of rugged duct tape wallets, hand bags and accessories)
