

## Housing Programs

For over 20 years, our organization has been helping families with housing. Rapid Re-Housing, rent and utility assistance, as well as referral services have been provided in the City of Atlanta, and in the counties of DeKalb, Henry, Clayton, and Cobb.

Valid expenses include rent, mortgage and utilities such as gas, water and electricity. Grants from the participating cities and counties as well as individual and corporate donations have made it possible for us to serve over 1,400 families in 2019.

**Giving Hope to  
Children in  
the U.S.,  
Africa and the  
Caribbean**

Qualified applicants may receive assistance for a limited time and are approved based on individual circumstances and the availability of funds. We work with other agencies to give applicants access to additional services. Our target applicants are those individuals and families experiencing financial crisis as well as those living with HIV+.

We are expanding our reach with two new programs. One will be the development of housing for Active Seniors aged 55+. The second project will be the re-purposing of one or more properties in a targeted area to offer housing, counseling and life skills courses for students and their families who have been identified as homeless and are attending public schools in Clayton County.
