

APRIL '24 RAG

Kent County Aero-Modelers

From the Prez

Hello to all. As you can see I am restarting or in my case starting a club newsletter. My idea is just to sent a 2 page PDF file with any upcoming events, short report of past events perhaps something brief from training and safety. If ANYONE else would like to submit pictures/stories of RC related events they may have attended outside of KCAM that would be GREAT. (yes there is RC outside of KCAM).

So far things, I believe, have gotten off well. We had a pretty good turnout for the first flyer event won by Rob Lough (nitro) and Scott Harrison (electric). There was quite a bit of food afterwards.

We had our field maintenance day on March 6th and Club Meeting as well. I think lunch was thrown in too. I'd like to thank EVERYONE who participated. You should notice a bit of a change and hopefully improvements to our field. I would really like to thank Jack Dickerson the Field Chair.

'Nuff Said see ya at the field.

Field Work

Besides the usual trimming, raking and repairing, Eric Barker cropped a good 10 to 20 feet off the trees on the east end of the runway. THANKS ERIC. I KNOW this will in the long run reduce crashes...ask me how I know.

We also leveled the RC car track do to lack of interest. Jack flattened it out with some large Tonka truck and seeded it. It will look great once everything has grown in.

Last year at the Large Scale fly in we had a gentleman by the name of Ben Culhane join the club. He coincidentally owns a road paver, a large 12000 lb type. He has graciously allowed the use of it to flatten the runway. The Roller will remain at the field and will be used on a regular basis. Once the details are worked out we will come out with a "roller schedule". I really think rolling the runway will .

MAY 2024 UPCOMING EVENTS

* 1 MENTION FOR JUNE

MAY 4

Tailgate/Swap Meet
Club Meeting

MAY 11

SPRING ROAD CLEAN UP

MAY 12

SPRING ROAD CLEAN UP
(RAIN DATE)
