

the *Ellenwood*

*An entirely new home design combining the convenience of single-level rambler living, and the space you'd find in a two-story home. A covered porch entry leads into a room-size foyer, an immense living room and large and completely separate dining room, big harvest kitchen with separate breakfast bay, first floor laundry room, a powder room. The warm and inviting family room features a fireplace and built-in wet bar. A private "sleep wing" boasts 4 large bedrooms and 2 compartmentalized baths. Single garage, air conditioning and spacious basement included. This might well be the largest rambler you've seen anywhere.*
