

## CHAPTER VIII

### TIME OF THE SEAL OPENING

Already we have seen the opening of the Little Book of the mysteries of God; that it would not be done until the ending of time (*Apocrypha: II Esdras 6:11-21 [see appendix]*), for the prophet asked God, what would be the end of the wonders. This is of course, the events that would end the wonders. But if we find an event in the earth that shows the opening of the fifth seal, we can then lay our fingers on the timing of the judgment. Now when the first seal was broken in the book on the four spirits of the heavens, a great thunderous noise was heard in the heavens where the four spirits were heard. Notice verse one of chapter 6. of the book of Zachariah *[see appendix]*.

When the sixth and seventh seal is opened, they will be marked by a great earthquake in the earth, as we will notice later on. But because the fifth seal opens the judgment...or court in heaven...the Lord did not set a marking for it in the Bible...in sight; for the direct Day of Judgment and the resurrection he has kept in secret as to the day and hour. Notice his word on the judgment (*Matthew 24:36 [see appendix]*). Now notice his word on the resurrection and his word on the judgment in heaven (*I Thessalonians 5:2 and Matthew 24:43-44[see appendix]*). This, of course, is in reference to the heavenly court. Notice Daniel 7:13 *[see appendix]*. The whole truth is that when the court closes in heaven, the wrath of God will begin to fall lightly on the earth in the calamities all around us in the elements of nature. When this is done, the mercy of God is not present any more with the wicked. Already we see great calamities made by fire when so many children and babies are killed. One can see that there is no mercy here (*Notice Ezekiel 9:4-6 and Revelation 1:2 [see appendix]*).

As a messenger of these things, I will give you my experience:

Already we have seen that all of the seals open with noise of thunder or earthquakes. Therefore, the fifth seal was marked, but not mentioned in the Bible. Now there was a great earthquake in Outer Mongolia last year, which cut a trench 150 miles long; big enough to set a ship in it. It even cut through the mountains and reset them. “Never an earthquake so great in our history”, Russia reported. Then a little later, a great earthquake occurred in Alaska. These quakes were signals. I saw in night dream a great cloud rising, having a west-to-east movement. It was stretched across the whole heavens and there was a curtain hanging down from it. Then two weeks later, I saw the same vision again. This time it had taken half of the heavens and had come to the earth about shoulder high. But the curtain came down to the shoe tops. This was a great sight indeed. However, I saw no one; yet there was one behind the curtain, for his glory was veiled by the clouds of the heavens. Then I turned from this great sight, but three flashes of lights signaled me to come to the clouds of the heavens; this I did. I came very close as one standing behind a curtain before a window. I then turned and went my way, preaching the everlasting Gospel of the soon coming of Christ. Yet, I saw no man; but a little later, I saw him that came with the clouds of the heavens and another with him: for their glory was veiled. I knew him by the signals he had given with the clouds. I heard the other angel with him refer to him as “Commander”. But before all this, I had sought God in the behalf of the people and also for myself; knowing that the “Doors of Mercy” were about to close forever. I asked God if it was possible and if it was his will – inasmuch as no time was set for the judgment from the Bible – that time might be lengthened for the people. I heard the “Commanding Angel” say, “Sixty (60) days and that he would give a sign”. He made the same motion with his hands as he did giving the light signals to me from the clouds; and then ten days later, the great earthquake occurred in Outer Mongolia; a little later, one occurred in Alaska.
