# Welcome

## TO OUR ANNUAL PRODUCTION SALE

Robert, Kara, Robby and Harold  
5096 95th Street • McIntosh, South Dakota 57641  
701-422-3721 or 701-422-3726  
campbellra@westriv.com  
campbellredangus.com

Welcome to our Campbell Red Angus 2021 production sale. We have made some big changes this year. We are **MOVING THE BULL SALE HOME** after 50 years of raising Red Angus. The sale is going to be right here at the ranch headquarters. Be sure and look at the map in the catalog. If any questions arise, don't hesitate to give us a call. We feel this move is going to show you a truer representation of the bulls and our program. Take the adventure of coming to the ranch!

We are still a family operation you have grown to know and trust. Harold, Robert, and Robby are on the ranch full time, with the addition of Jennifer graduating in November to help through calving. Jennifer is still working towards her vet degree. Lacey, her husband and children, as well as Melissa and her husband are still residing in Wyoming.

The cattle and genetics are the same base you have come to rely on since 1973. We did add some new bloodlines that are phenotypically strong, have good data, and produce desirable traits. Some of these lines of out cross genetics will add a new dimension to any program. Be sure to check them out in our reference sire layout. When selecting cattle for our program, we rely on three generations of management input. This adds a unique perspective of looking at the same animal.

We have been feeding with our TMR feeder wagon for several years now. We are continually adjusting and testing to meet the needs of our cattle. This year we added alfalfa hay as the main protein source. The ration included alfalfa, corn silage, modified distillers, corn, and a adjusted supplement to balance minerals. The feed comes from readily available sources. The bulls performed well having an average daily gain of 3.25. The scrotals are adjusted by the Red Angus Association and were taken January 19, 2021. The EPDs in the catalog are BOLT as of January 26, 2021.

We are bringing 16 quality replacement heifers to our sale that represent a cross section of our herd sires. The heifers were developed with the whole group until January 22, 2021. They are on a high roughage TMR ration consisting of alfalfa mix hay and corn silage. They did quite well proving their feed efficiency and genetics. We hope you will take advantage of this opportunity to bring these outstanding genetics into your herd.

The reliability, strong performance, and diversity of Red Angus cattle is very popular in the cattle industry. They are the standard other breeds try to match. Red Angus steers have been topping the market all fall and winter. Replacement females continue to bring a premium of several hundred dollars per head, bringing even more than their steer counter parts. With the increasing popularity in Red Angus cattle, let Campbell Red Angus genetics help you get the maximum returns in your operation.

We welcome you to come to the ranch to view the cattle until March 1st at which time we will have the sale on the ranch. We will also have video of the sale bulls at [Campbellredangus.com](http://Campbellredangus.com) available in mid February for viewing. DVAuction will be available sale day for bidding.

Our family, friends, customers, and cattle are the reason we keep working hard in the cattle business. Please come early on sale day for coffee and rolls. Lunch will start at 11:30 MST. We look forward to seeing you there!

Sincerely,  
Robert, Kara, Robby, and Harold

#### National Red Angus Association of America

Rachal Oliver, Commercial Marketing Specialist  
..... 406-480-1569

### Guarantee

Bulls sell as guaranteed breeders. Due to their young age the bulls haven't been semen tested, but we strongly recommend you have them semen tested before you put them in service. All claims must be submitted to the Seller in the calendar year, along with written semen evaluation and health report from a licensed veterinarian. All heifers are sold palpated and open. Seller has the privilege of trying to prove the bull after his return, before making any adjustment. This guarantee is null and void if there is evidence of improper management in care of said animal, or if the inability to breed is due to sickness or injury after being sold. Insurance available through Martin Trudeau Insurance.

**PLEASE BRING THIS CATALOG TO THE SALE.**

### Terms and Conditions

All cattle sell under the recognized terms and conditions of the Red Angus Association of America, and by these additional conditions. Terms of the sale are cash. Any dispute as to bids are settled by the auctioneer. Announcements from the auction block take precedence over printed material in this catalog. Animal is the Buyer's responsibility upon being sold. All persons who attend the sale do so at their own risk.

**Come early for Rolls and Coffee  
Lunch at 11:30**

Catered by D T Catering

### Performance and EPD Codes

1A - 100% Red Angus

1B - 87% - 99% Red Angus

### Performance Info:

**BW** - Actual BW

**Adj 205** - 205 day adjusted weaning weight

**Adj YW** - 365 day adjusted yearling weight

**ADG** - Gain on test

**WDA** - Weight per day of age over lifetime

**Adj SC** - Adjusted measurements taken on January 21, 2021. Adjusted to year of age.

**CC** - calving code

1 - use on cows

2 - use on cows or growthy heifers

3 - fewer calving problems should occur when used on first calf heifers

### Eartags

**Lot numbers** - yellow red Angus tag

**ID numbers** - colored tag

### Feed & Delivery

We will offer free delivery of bulls immediately following the sale to central points within 300 miles. Balance at cost. Feeding of bulls by arrangement until April 15, 2021. Bulls fed at buyer's risk. We strongly suggest you purchase insurance on your bulls.

### Registration Transfers

Registration papers transferred to buyer when available. Leave name and three line address when making settlement if you want papers transferred.

**We reserve the right to retain 1/3 semen interest on any bull.**

MARTIN-TRUDEAU INSURANCE

# LIVESTOCK DIVISION

**LIVESTOCK:**

- Mortality
- Infertility
- Prospective Offspring (Pregnancy)
- Packers & Stockyards (Mortgage & Stolen Cattle)
- Feed Yards

*Frozen Semen & Embryo/Storage & Transit*

**EQUINE:**

- Mortality
- Major Medical/Surgical Options
- Stallion Infertility (ASD)
- Prospective Foal
- Private Horse Owner's Liability endorsement

**We proudly represent the following companies:**

*AXA XL, Liberty Mutual, Stockmen's Insurance, Nationwide, Chubb Agribusiness, Grinnell Mutual*

*Livestock Insurance endorsed by the SD Angus Assn. & the SD Simmental Assn.*

1531 W Elm Ave • P.O. Box 487 • Mitchell, SD 57301

# RED ANGUS GUIDE TO EPDS

[RedAngus.org](http://RedAngus.org)

**ProS** ..... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB** ..... HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM** ..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED** ..... Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW** ..... Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW** ..... Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW** ..... Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG** ..... Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI** ..... Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK** ..... Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME** ..... Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG** ..... Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM** ..... Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY** ..... Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB** ..... Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG** ..... Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW** ..... Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA** ..... Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT** ..... Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

## PROFIT. REPEAT.

### Generate repeated profits with the industry's most-favored female.

Independent research from a decade of data collection showed Red Angus-sired heifers commanded \$66/head more than females of other breed types. That's nearly \$5,300 on a single load of replacement heifers to boost profits on your operation.

Visit [RedAngus.org](http://RedAngus.org) for details on the industry's most-favored female.
