

DO IT

Diabetes Outpatient Intensive Treatment Program

For Patients

- Who feel overwhelmed or stalled in progress
- Have a high A1C
- In need of better glucose management
- need help optimizing diabetes technology

Your Specialized Diabetes Care Team

Work both individually and with a team of Endocrinologists, Nurse Educators, Dietitians, Behavioral Health Specialists, and Exercise Physiologists to meet your needs.

Looking To Improve Your Diabetes Management?

DO IT is the only diabetes management program of its kind— combining state-of-the-art medical care and group diabetes education plus individualized nutrition and physical activity prescriptions.
