This exciting cruise to the Southern Caribbean is sure to be the perfect getaway-- full of sun and fun! Great entertainment and delicious cuisine! It's hard to find a more beautiful vacation destination than the Southern Caribbean.

- The locals call Aruba the "happy island" and welcome visitors to picture-perfect strips of beach, swaths of exotic blooms, and some of the Caribbean's top shopping.
- The Islands of Curacao take you into the exciting pulse of the Southern Caribbean. Curaçao is where Europe meets the West Indies, and it collides here beautifully in a smashing blend of bold colors and cosmopolitan culture.
- Grand Turk- of Turks & Caicos islands, may be small but it's packed with scenic punch, historic charm and is a truly enchanted island.
- Fun Days at sea- There are always lots of fun, and activities on board... or just lay back on a deck chair and do nothing at all!
