Stack'N Trees Nug Run Crumble 1.0g

High Quality Nug Run Crumble. Not limited to dabbing only, you can easily add it to joints, blunts, or spliffs, or sprinkle crumble over the top of marijuana buds in a bowl or pipe. While its crumbly consistency can make it harder to handle than concentrates like shatter or budder, crumble wax has a reputation for giving consumers an especially potent and tasty experience.

Stack'N Trees Shatter 1.0g

Stack'N Trees extracts are made with the highest-grade cannabis, sourced locally. Shatter is a general term used to describe extracts made with cured, dry cannabis material. The extract has a clear, glass-like consistency making it easy to handle. The stability of shatter is beneficial because it leads to an increase in shelf-life and locks in terpenes. Perfect for dabbing and vaporizing!
