**Password:** padgate

You should complete the homework task set (using the videos to help if you are struggling). If the question is correct then it will turn green and award the marks. Continue through the questions using the tabs at the top of the page.

You are expected to make a full attempt at the homeworks, however there is no expectation that you are to achieve 100% in each one, and if you are stuck/unsure please ask your class teacher.
