ABOUT GTP

Professionals across all fields are finding it challenging to keep up with change in today's Digital Revolution. To meet this on-going transformation, we have established GTP as a Capability Building agency focused on design & deployment of User-Relevant Digital Experiences in the workplace. Our areas of specialty include AI, Data Engineering, Machine Learning, Cloud, Recruiting as a Service, Digital Adoption Platforms and eLearning.

We also help companies succeed in their Digital Transformation efforts, Head-Hunting Management Consultants and Digital Transformation Leaders with the right mix of experience and know-how in the areas of Operations, Governance, Finance & Digital.

We deliver 100% automated eLearning, certification oriented, "anytime, anywhere", as well as instructor-led virtual courses. Classroom-based training is also part of our catalogue.

Our People Effectiveness training covers the following areas: Project / Portfolio & Program Management, IT Service Management, Change / Value / Risk Management, SCRUM, Agile, Software Testing and Business Analysis.
