

Capability Statement

Core Competencies

Construction Projects are challenging, and SkyPlex Construction is committed to providing cost effective solutions to these challenges. Skyplex's standards of attention to detail, schedule flexibility and experienced supervision has earned the company a reputation of "Building Trust with Quality Work".

Skyplex offers the following primary services:

- Demolition and debris removal
- Clearing and grubbing
- Excavating
- Subsurface, drainage and pipe cleaning
- Site establishment and soil stabilization
- Residential and Industrial building construction
- Levee restoration and armoring
- Road construction and restoration
- Dirt, aggregates and other building materials

Recent Past Performance

- USACE – Construct a roadway connector through a gully and adjacent to wetlands.
- USACE – Rehabilitate airfield runways as per specifications.
- E.P. Breaux – Cleared sites, installed roads & drainage for construction of new electric sub-stations.
- Rapides Parish – Excavated and constructed access roads, installed drainage and flood control systems and constructed sites for new structures.
- Debris Removal – Cleared debris in central Louisiana following tornadoes and hurricanes.
- Christian School – Cleared, grubbed and developed site for construction of new building complex.
- Red River Levee Board – Dredged and cleared drainage canals in the City of Natchitoches.
- Recreation Complex – Cleared and grubbed a site and installed more than 12,000 feet of drainage for a new multi-field sports complex.

Differentiators

- We insist on safety procedures because our ability to work depends on it.
- We anticipate potential problems and work hard to keep the project on schedule.
- We monitor the quality of our work and do not leave until our customer is satisfied.
- We follow up on completed projects and address issues and concerns in a timely manner.
