

Empowerment Results When Children Experience Natural Consequences for Their Choices:

- What did you learn?
- How would you do it differently?
- Can you list the choices you might make that are different for next time this happens?
 - What other options did you have?
 - What resources might you need?
- What do you think is possible in that situation?
 - How will you handle this mistake?
 - What might be the longer-term effects?
 - What else might affect the outcome?
