The committee reviewed the recommended parking lot surfacing revisions, and recommend that:

- ❖ Drive ways in front of Building 3, 4, 6, 7, & 9 will be closed off.
 - In these spaces parking spots will be created.
- ❖ Parking for building's 2-4 will be switched to a 30° one-way parking routing in counter clockwise.
- ❖ Sidewalks will be widened to 5ft.
- ❖ The driveway to the recreational building/office will be widened and adding a curb & gutter.
- ❖ Remove all existing poles and bases for parking lot lighting.

With these changes the committee will be reviewing the pros and cons of gated communities, and signage as it pertains to reserved parking.
