

Dear Friends,

Greetings from **Pahrump, Nevada**.

We have so many places to tell you about, but this isn't the day. We left **Dodge City, Kansas**, in a rush to get to Pahrump, Nevada, in order to help our friend and sub-agent, **Debbie**. We made it just in time to help her, but what a drive it was. We were in seven states (**Kansas, Oklahoma, Texas, New Mexico, Arizona, California, and Nevada**) in one week. For a couple that only wants to drive about 200 miles a day, this was a real ordeal. We are still tired and a little disorganized.

At any rate, we are settling in at **Preferred RV Resort** in Pahrump, Nevada, and invite you to come visit with us. The weather is fantastic and there is lots to do this time of year. Here are three events you might like to attend with us:

**Old West Days in Shoshone November 5-7** Shoshone is a very small, but historically interesting town about 30 minutes west (on the way to Death Valley) of Pahrump. The village streets will come alive with vendors, there will be an art show, a deep pit barbeque, live entertainment, history lectures, and much more. We are going, of course. If you would like to know more about this event, pull up <http://pvtimes.com/ae/old-west-days-in-shoshone-nov-5-7/>

**Death Valley 49ers Encampment November 10-14** More fun and education in Death Valley National Park which is only an hour west of Pahrump, Nevada. Are we going? Of course we are. The question is, are you? It's our belief that fun trumps a rocking chair. This five day event includes old-time and western-style music, an Invitational Western Art Show, craft shows, cowboy poetry, golf and horseshoe tournaments, a pioneer costume contest, 4X4 tours, wagon train and horse parades, community breakfasts, and much more. Want to know more? This link should do it for you <http://www.deathvalley49ers.org/>

**Cole & Cole Free Retirement Seminar November 14** Chuck and Donna will be hosting a dinner complete with an ice cream sundae immediately following our free seminar entitled, "**Protect and Grow Your Nest Egg in a Turbulent Economy.**" Have you been losing money in the stock market? Are you making peanuts in your bank accounts? Is your CD earning less than inflation? If you would rather earn a great guaranteed rate of return with absolutely no market risk, you might want to come to our seminar. **See attached flyer for more information.**

As soon as we get a little more time, we will tell you about a world class rib barbeque in the back of a gas station in **Kansas City, Kansas**. We will also tell you about a really interesting visit to the remains of a very old Missouri River boat that sank in the 1800s. And just for fun, we will tell you about camping for three days right in the middle of a city street in the tiny town of **Brewster, Kansas**.

Until next time, home is where we park it.
