

Dear Friends and Relatives,

Greetings from **San Luis Obispo, California.**

This is just a quick note to let our friends know that we have hit the road and are no longer based in **Redding**, California. We packed up and left the property of our RV friends, **Jerry and Judy**, on November 7. Our first stop was **Sacramento**, California, to visit with **Jim and Cathy**. We parked at the Elks Lodge in Sacramento and Jim and Cathy came over and had drinks and dinner with us at the lodge. Without a doubt, the Elks provide a very warm and friendly home away from home. The next morning we got right with the program and drove to **San Luis Obispo** to be with our friends, **Paul and Marie**. Our stay in San Luis Obispo will be a week or so in length. Paul and Chuck are working part time on motorhome upgrades and fixes. Paul is an old engineering buddy of Chuck's, has lots of tools, and can fix anything.

The weather here in San Luis Obispo has been spectacular. The Pacific Ocean at Morro Bay, Avila Beach, Shell Beach, and Pismo Beach is very beautiful. We've had mostly calm winds, clear skies, but perhaps a little too warm for a couple of hours in the afternoons.

**Morro Bay**

**Shell Beach**

Avila Beach

Pismo Beach

We are scheduled to be at **Pilot Knob RV Resort** in **Winterhaven**, California, from November 21 to December 5. Winterhaven is right next to **Yuma**, Arizona and very close to the Mexican city of **Los Algodones**. As soon as we get to Pilot Knob, Chuck will be working with biodiesel customers in Yuma and Donna will have dental work done in Algodones.

Jerry and Judy will be motoring down to meet us in Yuma and we will caravan into Mexico. The exact dates and destinations are yet to be determined. Got an RV? Come along!

Until next time, home is where you park it.

Chuck & Donna
