

Dear Friends,

Greetings from **Yuma, Arizona**.

We are definitely back on the road again. At this moment, we are at **Pilot Knob RV Resort** in **Winterhaven, CA**, which is a tiny little town next door to **Yuma, Arizona**, and **Los Algodones, Mexico**. We have written a great deal about Yuma and Algodones, so we'll spare you that news again. We only expect to be here for a total of one week. On Wednesday, December 10, we are giving our seminar, "**Protecting Your Retirement in Turbulent Times**," at 10 a.m. (Arizona time) in the dining hall. If you are anywhere near us, drop in, have a cup of coffee and a muffin, and see what we are doing. We promise you a lot of new and interesting information and we definitely look forward to seeing our Yuma friends again.

On Sunday morning, December 14, we plan to leave for **Organ Pipe National Monument** to meet up with our RV friends, **Jim and Peg**, of **American RVer**. After a day or two of rest, both of our motorhomes will head for **Kino Bay, Mexico**, which is on the mainland side of the **Sea of Cortez** about 60 miles west of Hermosillo. Conditions in the northern portion of Sonora are in a state of unrest so we are having a few second thoughts about the Mexico trip. Lou Dobbs of CNN did a special report on television a few days ago and claimed that 22 people were killed in and around Nogales, Mexico, during a two week period. Some were shot and some were beheaded. Apparently, the drug lords are in an intense battle with the Mexican police and the Mexican army.

On the brighter side, we urge you to fire up your computer and view the December episode of American RVer. There are three interesting interviews and the lead interview is with Doctor and Nurse Diesel. Yep, that would be Chuck and Donna. Approximately 40,000 RVers will see this interview during the month of December. Here is the link: [www.americanrver.com](http://www.americanrver.com) All of it will download before you see anything happening. Just be patient. With a fast Internet connection, it will download in about 5 minutes. With a slow download, it may take up to 30 minutes.

Until next time, home is where we park it.

Chuck & Donna Cole
