

Committee Name	Quality and Performance Measures (QPM) Committee				
Committee Charge	Review and discuss data; develop indicators to track progress in HIV prevention and care; and help improve the quality of HIV prevention and care				
2023 Area of Focus	Plan Obj	Inputs <i>(What does the committee need? Subject matter experts, data sources)</i>	Process <i>(What does the committee do?)</i>	Outputs <i>(What will the committee produce?)</i>	Comments / Concerns
1. Promote area of focus for quality improvement projects	Obj 3.2	<ul style="list-style-type: none"> Information on current quality improvement (QI) projects Indicator data: overall and by focus populations 	<ul style="list-style-type: none"> Review and discuss current QI projects and identify focus areas Highlight and share QI projects that address focus areas Promote QI projects that address focus areas 	Compilation of QI project presentations and related materials to highlight promising practices and lessons learned	<ul style="list-style-type: none"> QPM can encourage Ryan White providers to present QI projects and address focus areas, but there is no requirement to participate
2. Review data sets relevant to statewide indicators – including new indicators (e.g., housing)	Overall Obj 3.2 Obj 4.1	<ul style="list-style-type: none"> CT DPH data presentations / expertise on data systems and indicators QPM member expertise for new indicators (e.g., housing) Coordination with NAP for stigma indicator 	<ul style="list-style-type: none"> Review and discuss data presentations for indicators / areas of interest (see page 2 for details) Identify and recommend additional indicators to track 	Revised indicator summary document (i.e., indicators, baseline, progress)	<ul style="list-style-type: none"> Access to data, given staff turnover at CT DPH
3. Pilot process and tools to enhance accountability and monitoring the Plan	Obj 4.1	<ul style="list-style-type: none"> QPM member expertise on available reports that can help track implementation Participation of funders / stakeholders in providing implementation information 	<ul style="list-style-type: none"> Draft a monitoring form for pilot-testing the monitoring process Encourage organizations to complete form Review and discuss results, identify ways to improve monitoring process 	Monitoring form for organizations to complete (e.g., online survey) Monitoring report showing progress to data	<ul style="list-style-type: none"> Will organizations complete the form? How can QPM / CHPC / DPH encourage participation?
4. Coordinate statewide quality management summit event	Obj 2.2 Obj 2.3 Obj 3.2 Obj 4.1	<ul style="list-style-type: none"> Information on current quality improvement (QI) projects Participation of providers in sharing their QI projects DPH and QPM staff and member support in organizing summit 	<ul style="list-style-type: none"> Identify topic(s) of focus for summit Recruit providers to share QI projects Organize and hold summit 	Recruiting and marketing materials Compilation of QI projects featured at summit Video of summit	<ul style="list-style-type: none"> Allocating sufficient time to organize summit, given other priorities – may need to form ad hoc team to meet outside QPM

Work Plan Activity and Milestones Over Time	Month 2023											
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
General Committee Management												
Approve meeting summary	x	x	x	x	x	x		x	x			
Updates from partners and members (as needed)	x	x	x	x	x	x		x	x			
1. Promote area of focus for quality improvement (QI) projects	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Share information on current and recently completed QI projects	x											
Identify additional QI projects	x											
Discuss / identify QI area(s) of focus			x			x						
Encourage additional QI projects on area(s) of focus			x	x	x	x						
2. Review data sets relevant to statewide indicators – including new indicators (e.g., housing)*	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Presentation on HIV testing by population		x										
Presentation on PrEP				x								
Presentation on sexually transmitted infections (STIs) – at CHPC meeting					x							
Presentation on current indicators, updates on proposed indicators									TBD			
Recommend additional indicators, update indicator summary									TBD			
3. Pilot process and tools to enhance accountability and monitoring the Plan	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Develop monitoring form			x	x	x	x						
Discuss and agree on process for pilot-testing monitoring			x		x	x						
Gather monitoring plan data							x	x	x			
Review and discuss monitoring plan data, revise process as needed									x			
4. Coordinate statewide quality management summit event	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
See #1 for initial activities	x	x	x	x	x							
Plan summit (topics, presenters, logistics)						x	x	x	x			
Hold summit										x		
Share materials / video from summit											x	x

Through May 2023...

Quality Improvement (QI): Compilation of QI projects, initial priorities for Quality Summit and future QI projects

Indicators: HIV testing and PrEP data + recommendations, May presentation on STDs to full CHPC

Monitoring: Review of initial framework and pilot-test; feedback from Executive Committee; to be discussed at May meeting

Quality Summit: We need to get to work!!! Who wants to present?

Action & Coordination: Routine Testing Toolkit (ETS); Stigma Assessment & Housing (NAP); Member Engagement (MAC)

Monitoring Connecticut's 2022-2026 Integrated HIV Prevention and Care Plan Pilot Test for January – June 2023

- Compile federal funding reports (CDC, HRSA) – request from DPH and Ryan White Parts
- Follow-up meetings with “leads” to compile implementation updates for specific strategies (see below)
- Executive Committee recommended an initial focus on **Routine Testing, Status Neutral Care, and CHPC Committee work**

Goal	Selected Strategy	Lead Agency / Committee	Notes
1. Prevent new HIV infections	Implement message campaigns	Positive Prevention CT (PPCT)	Leading campaigns
	Build capacity of providers to implement routine testing	Ending the Syndemic (ETS)	Developing Routine Testing Toolkit
	Implement / expand status neutral care model	DPH Part B Ryan White Part As	
2. Improve health outcomes for people with HIV	Implement Data to Care (D2C)	DPH	
	Pilots to reduce stigma	Needs Assessment Projects (NAP)	
3. Reduce HIV-related disparities and health inequities	Promote use of CLAS (Culturally and Linguistically Appropriate Services) standards (Year 2)	AIDS Education Training Center (AETC) Ryan White Part As	Check on data available on trainings and/or reporting. Note that DPH has contract language only.
4. Achieve integrated, coordinated efforts	Engagement of PWLE (People with Lived Experience) on CHPC	Membership and Awareness Committee (MAC)
