8,750 trees are ready to be planted!

Volunteers are needed to plant these trees and help them grow!

Groups of 20-40 volunteers are needed on weekends to plant the tubestock that has been grown from the trees adopted since January.

This is a great opportunity to have a weekend away in a country town and help support local farmers by staying accommodation, eating in restaurants and doing some wonderful country shopping!

Plant a tree for our future ... volunteer today!

Would you like to help us plant trees?

There are 10 opportunities to plant trees during September and October.

Why not invite your family, friends, neighbours, work colleagues, Rotary Clubs, local sporting, and scout groups to participate in a wonderful team building event!
