

# Equipment Rental Program

**Carlton SWCD has farm equipment for landowner use!**

**Call John Stoltz at (218) 384-3891 ext. 9**

Carlton Soil and Water Conservation District (SWCD) has equipment available for rent. Rental rates are \$12/acre for the Great Plains No-Till Drill and \$10/acre for the Brillion Seeder with a minimum rental fee of \$150. These can be used for interseeding new species into an existing hay field, a complete field renovation, or even for planting small grain and soybean. We also have cost-share opportunities for no-till and cover crop practices depending on the situation to help offset the cost of renting. For more information or to be added to the equipment rental schedule, call John Stoltz or fill out an online request form at <https://carltonswcd.org/landowner-resources>
