

Hello!

My names Karin!

I was born and raised in Tāmaki Makaurau, Auckland, New Zealand. I grew up in a big family, consisting of three sisters and one brother. My mother was a single mum looking after us as kids as well as my grandparents who moved to New Zealand from Japan. I went to playcentre, a place where I have so many fond memories of.

The community I was raised in was a very down to earth and a genuine space, where we were always encouraged to do what we want and to express ourselves the way we want to. I am super grateful that I have those personality traits as I can continue to explore more things that I am interested in.

During my early teen years, I loved photography and film. I would create short films and take photographs, landing myself my first ever photography exhibition at the age of 15, and my first short film finished and made at the same time. I then went on to be interviewed in a spread for Black Mag (NZ) and Nylon Japan.

NZOnAir, formally the Broadcasting Commission, is a commission of the New Zealand Government responsible for funding support for broadcasting and creative works. Every few months, they will give out a grant to musicians to promote and create content from one of their songs or album. I have now done five music videos for various artists under this grant.

I attended AUT (Auckland University of Technology), completing two years in a Bachelors of Communication design, but then moving to Yoobee College of Creative Innovation, finishing a level 5 diploma in Digital Media and Design.

I moved to Naarm, Melbourne in November of 2023 to be with my long-distant partner. I packed four suitcases and flew my cat over for our big move. Melbourne has been great so far, but I am looking into moving more into consistent and structured work rather than freelance work.

As you can see, I have a lot of experiences in different spaces of art and different communities, which makes me stand out from other creatives.

Feel free to look through my website and I look forward to hearing from you!

Regards,

A book about cultural displacement and me.
Hand bound, hand painted, manually typed, gold origami crane insert, read back to front.

Gender neutral or gender inclusive pronouns are simply those that do not indicate the gender of the person they are referring to. In the same way that "she/her" is used to refer to women, "they/them" simply refers to a person without specifying their gender. There are other lesser-known gender-neutral pronouns, so remember that language is constantly changing as society changes and evolves; just because these words are new to you, it doesn't mean they aren't legitimate.

"They" has been used as a singular pronoun to describe someone since at least the 14th century.

GETTING BETTER

How to do better at getting new pronouns right – no more "Oh, I'm trying, but it's just really hard"

1. When you slip up, correct yourself briefly and move on.

2. When someone corrects you, say "Thank you" and move on swiftly.

3. Get in the habit of interrupting people with a quick correction. Every. Time. It sets a good precedent, lifts some of the burden off trans people and makes it easier for you to catch yourself.

4. Don't make anyone feel like a burden for having pronouns you're struggling with (do not say "oh, it's just really hard").

5. Don't make them alleviate your guilt. Express your love and learn. If you get it wrong, do not apologise profusely because that puts the other person in the position of having to say it's okay and putting their own feelings aside to make you feel better/stop apologising.
