

Happy Easter/April Fools/Spring Arrival,

I'm going to keep this short. I'm very excited because our new album Unnatural Tendencies is being released on April 20. This is my 10th album and it has some of the best songwriting and performances that I have ever done. I'm so pleased with the production and quality of this recording that I think everyone will enjoy listening to it. So please check it out and pre-order at these sites (effective April 20/24). Thank you!

Next, I'm super excited for the Album Release Event that is being held on Sunday April 21 at SimonHolt Restaurant 6582 Applecross Rd, Nanaimo.

The show starts at 7pm with a terrific opening act called String Fever, and then features Glen Foster Group performing songs from the new album and some of my other favourite original tunes. So if you live close enough to attend please put this on your calendar and come out to support the band with a very enjoyable evening. We only do a show like this once every 2 or 3 year so you won't want to miss it. Phone to make a reservation or click the link below [\(250\) 933-3338](tel:2509333338)
