Chemtrail Attacks On Millions In Europe Continue

8-1-8

From: Philip Jones <true_brit58@hotmail.co.uk>
Date: August 1, 2008 2:45:28 AM PDT
To: Jeff Rense
Subject: FW: Chemtrail attacks against innocent people.

Dear Friends,

Please see the below letter written by myself to the Danish Ministry of the Environment, to which I have to date yet to receive a reply. If you feel it appropriate, please feel free to post on your relative sites. It is short and to the point and will not take up too much room.

Only those living up here in the North Of Europe can understand the level of Diabolical Totalitarianism exercised by the Danish, Swedish and Norwegian Governments.

I read about how in the UK, US and Canada, the Tax Burdens and costs of living being imposed are becoming intolerable. `Newsflash`, they've been that here for twenty years. Where else does one have to pay tax on one's tax. That's right, we pay `Sales Tax` or VAT on our property tax, as well as on everything else. Daily our skies are chequered with Chemtrails, Corporate Fascist Monopolies dictate ridiculous price rises unseen anywhere else in the west at any rate, and knowing they have zero competition, brazenly dismiss any complaints or queries. Extra quarterly payments are demanded as they shift from payment in advance, to payment in arrears and back again (Five `quarterly` payments in a 12 month period). All I hear is the reportedly `Happy Danes` resignedly mouthing the words, "There's nothing you can do about it".

They are Chemtrailing the population to death, and no one here wants to

evn know about it, such is the level of indoctrination.

I want to get the message out to the rest of the world what is going on here, as any platform for dissenters is denied. Please post.

Philip Jones

Subject: Chemtrail attacks against innocent people.

Date: Wed, 30 Jul 2008

Dear Sir/Madam,

I am writing to you regarding the unprovoked Chemical Attacks being leveled against the people of Denmark and around the world by the International Industrial Military Complex.

I do not intend to write at length here as experience has shown that when dealing with Danish Officialdom, it is usually a total waste of time to do so as response is usually not forthcoming. Suffice to say that if you are not aware of the true nature of these attacks on innocent civilians, then it is your duty to investigate the matter. If you are aware and do realise that the chemical and metal bi products contained in these `Air Dispersed` Chemtrails contain Barium, which is lethal and toxic to all known life.

Can you go home and sleep at night knowing that small children are having their lives destroyed. That our food and water supplies are being deliberately poluted and contaminated. That our brain capacity is being diminished and our minds left open to outside programming via the HAARP facility in Alaska and it's many substations particularly throughout Nato countries.

If this all sounds like just another `Conspiracy Theory`, I challenge you to read the attached documentation. If you yourself have children, it's time you looked up in the Sky and noticed the strange long cloud trails, crossing each other in Grid Like patterns on an almost daily basis now

These are not the result of condensation from Jet Engines. These are `bio` weapons being deliberately targetted against innocent men, women and children, not to mention livestock and vegetation. Forget that you work for the government (in reality, the Danish people), you are a member of the Human Race, and have a duty to prevent the Genocide of it's population.

Do not take this lightly, it is a deadly serious matter. I have written this in English as I intend to circulate a copy to various websites around the world.

Yours Sincerely,

Philip Jones

Analysis of chemtrails in Norway ?

March 5th 2008

This is the story according to my source:

On and around October 7, 2007, there was a big military exercise called Arctic Tiger on Ørlandet NATO Air Force Base, Norway. For days the sky was filled with chem-trails, much more than usual and in all kinds of shapes and patterns. One of the days during the exercise, the base was open to the public. My source, together with a couple of friends, went there to see if they could find any evidence of the spraying. After a little while, they left the rest of the crowd and went for a 'stroll' around the base. They found the fuel-trucks (Statoil) and went over to examine them more closely. Just behind where all the fuel-trucks stood, they found another tank, one big empty metal tank with multiple outlet pipes and more which made them suspicious. To them, it seemed like whatever had been in the tank was mixed with the jet-fuel. My source was able to look inside the empty tank, and found that there was some white, dusty stuff left in the bottom. He took a sample. He sent this sample to analysis, and for economic reasons he could only search for Aluminium and Barium, the two most reported substances in chemtrails. Last week, he got the results from the lab, and what do you know, it was a full score!

You can see the whole analysis here: <http://internet.phobic.no/chemtrail.pdf>

My source have today been in a meeting with the Norwegian broadcasting station NRK, and discussed the possibility of making an investigative report on the issue of chemtrails. It will be very interesting to see what happens in this case now!
