

Charge against Government (Holyrood and Westminster) and their scientist advisors.

We charge the Government of committing worst crime in human history on innocent and law abiding people of this country.

Charge 1: Invoked Fear instead of reassurance of protection (as expected from any good Government during any crisis):

*** they showed us people dropping dead in Wuhan,

*** they told us to stay in (locked us in to increase fear),

*** they showed us graves for the dead, they showed us trucks for bodies,

*** they prevented us from seeing our loved ones as they departed this world in fearful conditions of care homes and hospitals,

*** they controlled media to bombard us with fearful messages and guilt message (SVAE NHS),

Charge 2: Waste of precious resource of the country (people paid taxes through their nose last year)

***they built nightingale hospitals that were never used,

*** they closed all services and businesses, paying huge sum of money as “furlough” to silence us...burden of which will be put on us for years to come.

*** despite a shortage of police force to tackle crime, they engage all police force in “implementing trivial compliance by citizens” on some crazy ideas that civil servants cook up every day.

Charge 3: Killed NHS - the jewel of civilised society in the UK:

*** Despite putting all guilts of saving NHS “on us” and making us clap NHS every week, NHS is now killed and providing no service. Because Government want let them deliver any service, no matter people gravely sick with life threatening illnesses.

*** Military all round the country should have been easily mobile to tackle any raising cases of Covid-19, instead NHS was in total lock down (yet empty for six months)

*** NHS has been systematically deprived of resources for the past 20 years and yet we were asked to “Save NHS” - did Government carried our their duty?

Charge 4: Misguiding us and silencing us while the “mad club of scientists” keep twisting science and evidence to suit tyrannic step. Throttling our democratic rights despite being obedient citizen of this country needing to respond to the crisis of Corvid-19 infection.

*** they told us to mask us and our children (the future generation of this country) to silence us in obedience for generations to come.

** they falsified numbers of Covid-19 cases and death associated with Covid-19 infection to justify all arbitrary useless and harmful actions.

*** they are pushing for quick roll out of vaccine despite possibility of side effects that may surpass Covid-19 infection itself.

Charge 5: Attempted to kill social fabric of our very existence and civilised people

*** they left our parents grandparents on their own, almost imprisoning them on the name of “shielding”

***they stopped us attending a wedding or funeral,

***they shut down people’s livelihoods ,

***they shut the schools ..

*** they have divided us where we should be together, encouraging people to spy on each other and hate each other for doing this or not doing that. (some what resurrection of ‘Gestapo fear’ during Nazi time in Germany)
