Introduction

This *MayDay! Marathon Vaccine Truth* volume is intended as both a resource of vital, and hard to find, information and a resource for those interested in understanding the reality of vaccines, the history of vaccination and the utter destructiveness of the practice for both individual and population health.

We are deeply concerned by:

1. The weaponization of our genome against our healthy survival, for the consequences of which Dr. Rima has coined the term “*Genome Disruption Syndrome*” or GDS¹
2. The intended **and** unintended biotransformation of the entire biosphere of the planet.
3. The enhanced push toward universal mandatory vaccination taking place around the world in what appears to us to be a coordinated attack on our genome, our health and our liberty.

Through the powerful leadership of Foundation Trustee and Legal Director, Counsel Ralph Fucetola, JD, the Trustees of the Foundation decided to create an informational hour radio May Day Vaccine Truth Marathon on May 1, 2015. This presentation grew from an original estimate of 3 hours to a full 16 hours. To include all of the speakers, thinkers, scientists and social activists involved at the leadership and vanguard levels, all the experts and truth advocates in the area of vaccines, our marathon would have run to hundreds of hours.

We thank each and every one of our presenters, recognizing their subject mastery and personal generosity in donating their time and focus to this critically important effort. Live streamed by a consortium of internet radio stations around the world, the experts we presented in this unique ground-breaking Marathon program came to us from around the world and represent a wide array of disciplines and experiences. Their wisdom was potentially heard through this consortium of steaming broadcasts, by hundreds of thousands of people, possibly many more.

We also recognize that information alone is meaningless without action to implement it. Thus, we urge everyone to refuse any treatment which they feel

¹ See www.GDS-Therapy.com for a free downloadable ebook on this subject and a self-test which allows people to determine if their health problems are secondary to damage to their genetic material.

will not, or may not, be of benefit to them, relying on their basic Human Law² rights to informed consent which means the right to say EITHER yes or no to any proffered treatment for a good reason, a bad reason or no reason at all.

We also urge you to take the Action Item here, <http://TinyURL.com/VaccinationISViolation> to flood decision-makers with your opposition to being coerced to accept a treatment which violates your best judgement. Take it once for each member of your family or household and then spread it with into all the communities of interest you can reach so that others can make their voices heard.

Our special thanks to Stew Webb and Gene (Chip) Tatum, the guiding spirits of Veterans Truth Network Radio, www.VTNRadio.com, for their unfailing support and their willingness to commit a full, long day of broadcasting to our show. Chip labored mightily to deal with the heavy and skillful interference which we were getting, using all his “intel” skills to do so. We, the faculty and listeners were unaware of the serious hacking that he repeatedly deflected. Well done, Chip, and thank you Stew.

This *Mayday! Marathon* Ebook and Archive consists of the archived presentations plus texts, graphic data and other material provided by the presenters with links to over 16 hours of recorded information about Vaccination and Vaccines. In addition, there are bonus sections with additional presentations which time (or in the case of Dr. Sarah Schons’ presentation, aggressive hacking) did not permit to be included in the Marathon broadcast.

There is also a bonus section with selected video and other resource recommendations which we believe are important for informed consent and dissemination of real, not commercialized, science-based information.

The Background for the Marathon includes another ten hours of previous podcasts and other archival materials.

The Marathon explored Science, Ethics and Law regarding voluntary and mandatory vaccinations.

It is true that we have a bias: we do not believe that anything which violates fully informed consent is ethical, moral or legal. And we understand that informed

² Enshrined in such internationally recognized documents as the Geneva Convention (to which the US is a signatory), Nuremberg Convention (to which the US is not a signatory, the Helsinki Declaration (to which the US is not a signatory) and the United Nations Declaration of Human Rights, to which the US IS a signatory).

consent applies to every medical or medically-impactful intervention. No reason need be given for informed consent to be exercised: whether the reason is science, religion, philosophy or no reason at all, it is the inalienable right of an individual to exercise that self-determination without hindrance. We are, after all, a Health Freedom organization dedicated to the proposition that each of us owns our own bodies and no one may determine what is required, or forbidden, for that self-determination to be properly exercised.

We also started with another bias, based on many decades of personal, professional and scientific experience: injecting poisons to create health is a preposterous notion which is unsupported by science or sense. Vaccines were conceived in error, propagated in fraud and constitute a massive threat to our health and our genome.

We presented independent scholars, lawyers, journalists, physicians, experiencers and commentators who are unpersuaded by either the vitriol or the distorted “science” of the vaccine community and reject the fraudulent notions of the pharmaceutical industry and its sock puppet regulators.

This event made no attempt to present “the other side of the vaccine debate” because we believe that there IS no other side.

Self-determination means that vaccine mandates cannot be created in a just society. Science shows that the entire vaccine industry is based on nothing short of deadly fraud. How can there, then, be a debate? The pro-vaccine side of the conflict (because that is what it is, in fact) repeatedly asserts that “the science is settled” although this is patently absurd for several reasons.

First, it shows a great and profound misunderstanding of the nature of science which is NEVER settled. In fact, the average half-life of “settled science”, universally accepted truths, in medicine is about 20 years. That is, 50% of what is believed to be “settled science” is no longer believed to be true by mainstream consensus in just 2 decades in obstetrics (5 years in psychology).

Second, the preponderance of scientific evidence IS settled: vaccines are dangerous, spread and initiate diseases, do not prevent diseases and induce wide-spread, frequent negative effects ranging from the long-delayed to the cataclysmic and do so across every organ system.

Vaccines introduce viruses which can be transmitted trans-generationally like the SV-40 virus which alters the genome for many generations, perhaps forever. They also suppress the immune system and leave it vulnerable to a host of cataclysmic outcomes too numerous to mention here. But what does fit in this limited space is the nature of our bias that in so far as the science can be said to be settled, it settles on the side of the imprudence of vaccinating anyone for anything.

The other side of the political and economic debate does not want this information spread about. In fact, people who raise questions about vaccines are silenced in supposedly liberal publications like the Guardian (UK) and supposedly conservative ones like the Republic (US) and the entire spectrum in between that have a stated policy of refusing to publish any information that challenges their stated pro-vaccination, usually pro-mandatory vaccination, position.

The other side of the political and economic debate agrees: there is no scientific debate. So we decided to present the suppressed science to you so that you could make your own decisions about what to do with your body and your child's body.

For me and for those to whom I have a personal duty of care, my decision is clear: I will not accept any vaccines. Your choice may be different, but it should be an informed one.

Looking at these issues is critically important to your health and that of those for whom you make decisions. It is my sincere hope and that of the other Trustees of the Natural Solutions Foundation that the exhaustive and extensive material here in the *May Day! Marathon* and the bonus sections gives you the information you need to make your own choices confidently and share that information with your circle of influence.

Yours in health and freedom,

NOTE: Much of This Material Was Available Before the May Day! Vaccine Truth Marathon (where your friends and contacts can still sign up to receive a copy of this ebook free) <http://TinyURL.com/MAYDAYMarathon>

Many of your favorite Internet Talk Radio freedom voices from around the world came together on May 1, 2015 for a Sixteen Hour Talk Radio Marathon to educate the world regarding Vaccination Freedom of Choice. Time: Noon to Midnight, EDT.

During the MAYDAY! Vaccine Truth Marathon you were able to listen, chat and share through Natural Solutions Foundation's Health Freedom Portal: www.HealthFreedomPortal.org . The interactive chat during the Marathon is reproduced in this ebook as an archive of the vital and vigorous interaction and participation of our audience from around the world.

Our live Twitter feed was sabotaged as were our Twitter accounts, @HealthFreedomUS and @DrRimaLaibow in the hours before the Marathon. For that reason we set up another Twitter account, @FreedomsFolk. Within minutes, it fared no better than the others so we were unable to use Twitter as a chat and comment mechanism. The Twitter feeds are working again, so please "Follow" them.

Our Twitter accounts, @HealthFreedomUS and @DrRimaLaibow remain, however, vigorous channels of communication and we urge you to follow us there and Like us on FB:/NaturalSolutionsFoundation and, in Spanish, /NaturalSolutionsChile

We will have live listening links and chat there. The archive of the event will be available on this web page: <http://tinyurl.com/MayDayMarathon>. Below you will find graphs that tell the truth and links to essential information about Vax Freedom of Choice to review before the Marathon.

Remember: when legislators hear from you *every day* the messages become an overwhelming drumbeat for freedom of choice! Their staff tells them how the emails "are trending..." and the trend they hear must be for Freedom of Choice!

The globalist elite are pushing hard to force people to be “fully vaccinated.” Rupert Murdoch’s Australian propaganda paper, the *Daily Telegraph*, has been on a pro vaccine rampage for some time now. It is the leader of the frenzied No Jab, No Play band screaming that “babies die” when everyone is not vaccinated and that there should be *no* choice and *no* exceptions. There are Pro-Vaxx bills pending in over two dozen US states, with California’s anti-vax freedom bill being especially restrictive. Federal Senators are poised to offer a bill that would force all Head Start kids to be “fully vaccinated.”

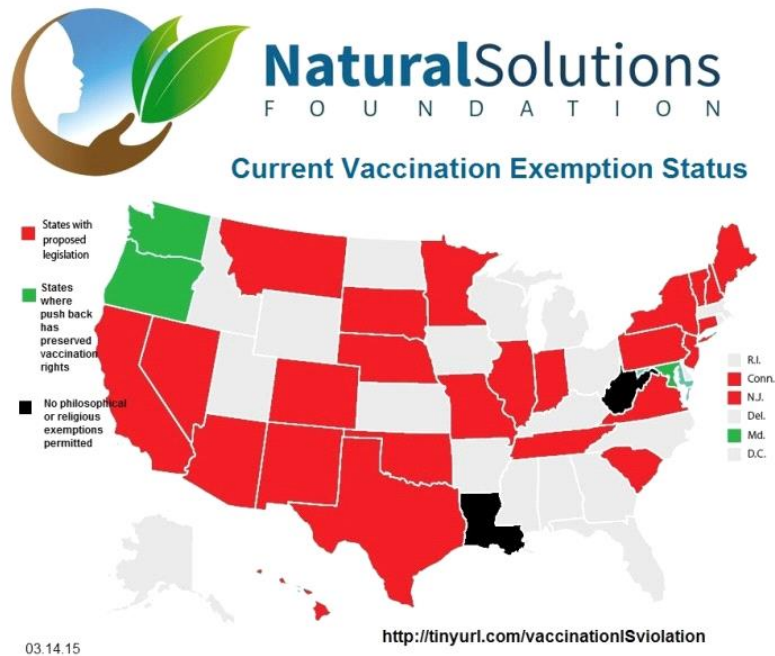

Similar demands are being raised across the globe, with Australia and the USA taking the lead in the Pro-Vaxx deadly drumbeat. The social media is being inundated with a carefully constructed campaign denigrating Vaccination Conscientious Objection.

Science and sense are not part of the Pro-Vaxxer mental wardrobe. They simply do not wear or use them. Liberty, personal rights, biological individuality and self-determination are non-starters for the Pro-Vaxx cohorts.

08:00AM  Introduction by **Dr. Rima, Rima E. Laibow, MD** (US, Chile) and **Ralph Fucetola, JD** (US) - <http://drrimatruthreports.com/?p=23944>

08:30AM  **Nurse Susan's Story** (US) – (Last name withheld by request for fear of reprisals) 17 years of battle with the Vaccine Injury Compensation Board following devastating vaccine injury caused by a mandated vaccine when Susan was in nursing school.

<http://drrimatruthreports.com/?p=23916>

09:00AM 🐾 **Walter Kyle, JD** (US) – Counsel Kyle defended claimants before the corrupt and unhelpful Vaccine Injury Compensation Board and, in so doing, learned about both the corruption of vaccines themselves and the system designed not to compensate the injured.

<http://drrimatruthreports.com/?p=23809>

09:30AM 🐾 **Freda Birrell / Norma Erikson** (Scotland / US) – guiding lights of SANE VAX, these two women speak eloquently about – and against, the devastating and irrelevant HPV vaccines

<http://drrimatruthreports.com/?p=23905>

10:30AM 🐾 **Sarah Schons, MD** (Germany) – Board Certified Immunologist and herself nearly killed by vaccines, Doc Sarah's perspective is unique and instructive. Note: Dr. Schons experienced high level interference so Dr. Rima read and discussed her presentation in her electronic absence.

<http://drrimatruthreports.com/?p=23920>

11:30AM 🐾 **April Boden** (US) – Mother of a seriously vaccine injured child who was thereby precipitated to study, and spread the fruits of that study, April is an activist, radio talk show host and articulate spokesperson for parents and others whose decisions must be not just popular with the system, but rational and protective of their own interests

<http://drrimatruthreports.com/?p=23924>

12:30PM 🐾 **Majid Katme, MD** (UK) – As a physician and a Muslim, Dr. Majid's message is simple and clear: vaccines are forbidden by Islamic law to every one of the 1.6 billion Muslims on the planet. Not everyone is happy to hear that message.

<http://drrimatruthreports.com/?p=23803>

1:30PM 🐾 **Adam Crabb /"General" Lee Maddox** (Australia) – Journalists and commentators in Australia, Adam and Lee are very clear that the global push to mandate vaccines by removing social opportunities and subsidies from those who chose not to vaccinate is far advanced in Australia. Their report of what is happening there and what is to come if the global thrust for vaccines mandates is not halted is chilling.

<http://drrimatruthreports.com/?p=23927>

2:30PM 🐾 **Sherri Tenpenny, DO** (US) – a tireless voice in the vaccine truth movement, Dr. Sherri has spoken her truth past intimidation, death threats and other obstacles designed to silence her clear and rational voice calling for sanity in a sea of vaccine madness.

<http://drrimatruthreports.com/?p=23792>

3:30PM 🐾 **Dr. Viera Schreibner** (Australia) – Studying why babies die in early infancy led Dr. Viera to a life-long focus on what, how and why vaccines impact us, killing and maiming so many allowing her to become a veritable volcano of scathing science on vaccines.

<http://drrimatruthreports.com/?p=23930>

4:30PM ➦ **Catherine Frompovich (US)** – Catherine is a nutritionist, journalist, commentator and ferociously dedicated truth advocate whose information is incomparable.

<http://drrimatruthreports.com/?p=23888>

5:30PM ➦ **Tim Bolen (US)** - health freedom advocate and strategist, Tim provides an inside look at the political corruption that allows vaccine mandates to come to the legislative fore despite their vast cost, both direct and indirect, and their scientific and medical dangers.

<http://drrimatruthreports.com/?p=23894>

6:00PM ➦ **Lawyer’s Hour: Jim Turner, JD, Walter Kyle, JD, Ralph Fucetola, JD** – when health freedom lawyers talk shop for an hour, their analysis is enormously important and productive.

<http://drrimatruthreports.com/?p=23938>

7:00PM ➦ **Vinny Eastwood (New Zealand)** – radio host offering “The Lighter Side of Genocide”, Vinny fearlessly and insightfully tackles the big questions and the vaccine connection to intentional genocide.

8:00PM ➦ **Désirée Röver (Netherlands)** – Health journalist and radio personality, Desiree brings a powerful and detailed look at vaccine programs, history and impact.

<http://drrimatruthreports.com/?p=23780>

9:00PM ➦ **Susanne Posel (US)** – Founder of ‘Occupy Corporatism’, Susanne’s forthright and deeply informative discussion gives us a clear breakdown of what the industry itself says that makes it clear that vaccination should not be accepted by anyone.

<http://drrimatruthreports.com/?p=23911>

10:00PM ➦ **Mike Adams (US)** – known world-wide as “The Health Ranger”, Mike’s tireless journalistic and activist efforts bring the real news that so many forces want to bury to huge numbers of people around the world. This discussion was no exception.

Do vaccines save the lives of our children (and us) as we are conditioned to believe or do they actually take their lives and ours?

The comparison below of two charts from a US government site makes the answer clear. We brought them together to make explicit what is implicit in the charts: the more infant vaccines, the more infant deaths. The United States leads in both horrid categories... and Australia is not far behind.

anon6443: QUESTION: When "REAL I.D." goes into effect in 2016 -- and basically sets-up "passports" for inter-state (or maybe any public-carrier) travel, is it likely that VACCINE-REFUSERS will be DENIED THE RIGHT TO TRAVEL interstate or on public carriers and public roadways in the U>S>" And what about PASSPORTS for international travel -- will VACCINE-REFUSERS also be denied the right to INTERNATIONAL TRAVEL?

CatherineFrompovich: Applause, applause, applause! Dr. Rima!

Fri May 1, 8:08:08pm

anon5570: How about a nationally coordinated non-violent action to demonstrate our numbers to our rulers such as driving with our headlights on or honking our horns or flashing our emergency flashers at a given hour or on a given day, week or month nationwide.

Fri May 1, 8:35:12pm

anon5733: Dr. Rima, on this point that you & your guest have just now mentioned, would you possibly also tie-into this same issue the "mysterious deaths" of many microbiologists, worldwide, in the past few years?

Fri May 1, 8:42:30pm

DrLaibow: 5570

Fri May 1, 8:43:40pm

DrLaibow: It seems to me that is nice, but has no chance of changing public policy. It is just as hard to organize something that will have an impact as something symbolic.

Fri May 1, 8:43:56pm

DrLaibow: I'll take the impact, thanks.

Fri May 1, 8:44:06pm

DrLaibow: Catherine. thanks!

Fri May 1, 8:45:43pm

DrLaibow: 5733, Sorry, I was not watching that chat when you posted that.

Fri May 1, 8:45:53pm

DrLaibow: What was the point you wanted me to respond to?

Fri May 1, 8:52:27pm

anon5733: If you're referring to me: I had asked if you might be thinking that the "mysterious deaths" of many microbiologists, worldwide, in the past few years, might be related to this entire issue?

ROLeary: Doctors are also supposed to generally follow the suggestions for treatment based upon the Merck Manual. If there is more than one choice for each malady, could we not ask that the doctors use the less violative

manner in which to help to address those maladies that vaccines supposedly protect them from. My father had a doctor give him a colostomy when the Merck Manual required dietary issues to address diverticulitis, for example. Should we look into that with regard to vaccines, Ralph?

Fri May 1, 10:19:07pm

ROLeary: I think the elites are focusing on California with regard to this as well as the smart meter metering brought on by the chemtrail/HAARP weather manipulation-smells like Agenda 21.

Fri May 1, 10:19:59pm

ROLeary: Maybe we should trace Dr. Pan back to the elites and see if we can link him to any known eugenicists in terms of funding or tutelage.

Fri May 1, 10:22:14pm

ROLeary: My father, before his surgery and installation of a colostomy was said to have given informed consent while he was on the table, already drugged and with his family left in the waiting room outside.

sandy: The spiritual aspect is very important, if one is not connected to themselves they are easy prey to the medical cartel.

Fri May 1, 10:58:55pm

ROLeary: Can you ask Mike if he has learned more from what looked like a worm of sorts in a McDonald's Chicken Nugget. I wondered if that could have been a nanofiber of the sort that we see in chemtrails and Morgellon's Disease.

Fri May 1, 10:59:17pm
