XRP/BIT	5	1 Coin	20%	BIT	-	0,008	Monday 00:05 - Friday 23:55

Margin Example

Margin for Indices will be calculated as the following:

$$\text{Margin} = \text{number of lots} \times \text{market price} \times 20\%$$

Example (1): Margin requirement for 1 lot of ETHUSD at (262.494) = 1 lot \times 262.494 \times 20/100 = USD 52,4988

Example (2): Margin requirement for 1 lot of BTCUSD at (9200.30) = 1 lot \times 9200.30 \times 20/100 = USD 1840,06

Example (3): Margin requirement for 1 lot of LTCUSD at (47.177) = 1 lot \times 47.177 \times 20/100 = USD 9,4354

Please note that you can't change leverage on indices from your BackOffice my.immfx.com

Profit Calculations

Profit for all Cryptos shown above will be calculated as the following:

$$\text{Profit} = (\text{close price} - \text{open price}) \times \text{number of lots}$$

Example (1): If you bought 1 lot of BTCUSD at 9200 and you managed to close your trade at 10000, then your profit will be (10000-9200) \times 1 lot = \$800.

Example (2): If you bought 1 lot of LTCUSD at 47.177 and you managed to close your trade at 80.155, then your profit will be (80.155-47.177) \times 1 lot = \$32.978.

Please note that losses are calculated in the same manner.

The profits or losses shown above do not include any commission that IMMFX takes per trade.

Commission Calculations

$$\text{Commission} = \text{number of lots} \times \text{market price} \times 0,008$$

Example (1): If you bought 2 lots of BTCEUR at 8200: Then the commission is: 2 \times 8200 \times 0,008= 131.2 EUR and will be converted to USD automatically on the platform.

Trading Hours

Server Time is subject to Daylight Savings Time (DST), which begins on the last Sunday of March and ends on the last Sunday of October.

Winter: GMT+2

Summer: GMT+3 (DST)

Cryptocurrency trading contract specifications

Trade CFDs on Bitcoin, Ethereum, Litecoin, and the most active Cryptocurrencies, with a 20% margin and no swap (interest). Trade 1 lot for 1 Coin on both rising and falling markets, with a commission of 0,8% or 0,008 of the trade/notional value, as well as easy profit and margin calculations:

$$\text{Margin}^* = \text{number of lots} \times \text{market price} \times 20\%$$

$$\text{Commission} = \text{number of lots} \times \text{market price} \times 0,008$$

$$\text{Profit} = (\text{close price} - \text{open price}) \times \text{number of lots}$$

*Note: If margin or commission is in a currency other than USD, then it will be converted to USD on the Platform automatically.

DISCLAIMER: High Risk Investment Warning: CFDs on margin carries a high level of risk, and may not be suitable for all investors. The high degree of leverage can work against you as well as for you. Before deciding to trade foreign exchange you should carefully consider your investment objectives, level of experience, and risk appetite. The possibility exists that you could sustain a loss of some or all of your initial investment and therefore you should not invest money that you cannot afford to lose. You should be aware of all the risks associated with foreign exchange trading, and seek advice from an independent financial advisor if you have any doubts. Please read [Golden Group's full risk warning](#).

Golden Group does not accept clients from the following countries: Eritrea, Ethiopia, Iran, Japan, North Korea, South Sudan, and the United States of America.
