EXTINGUISHING AGENT TRADING AUTHORISATION

NOTE

This Authorisation is granted subject to the provisions of the Ozone Protection and Synthetic Greenhouse Gas Management Act 1989 and the holder's attention is drawn particularly to the conditions prescribed in Regulation 332 of the Ozone Protection and Synthetic Greenhouse Gas Management Regulations 1995 (as outlined below):

1. keeps up-to-date records showing the amounts of extinguishing agents acquired, disposed of and recovered from any source by the holder during each quarter;
2. within 14 days after receiving a request in writing by the Fire Protection Industry (ODS & SGG) Board, sends to the Board copies of records mentioned above;
3. has equipment that is adequate for the holder's activities including one or more of the following: leak detectors (unless the holder has leak detection procedures in place), vacuum pumps, recovery units;
4. maintains, so that it operates correctly, each item of the holder's equipment that is necessary to prevent avoidable emissions of any extinguishing agent;
5. at least every quarter, checks any controlled extinguishing agent container at the premises for leaks;
6. ensures that any container filled by the holder meets AS/NZS 2030.1;
7. puts into effect a risk management plan for the premises as approved by the Fire Protection Industry (ODS & SGG) Board at the time of the holder's application for authorisation;
8. ensures that, at the premises, any extinguishing agent is handled in accordance with each applicable standard set out in Table 326 of the Regulations;
9. ensures that destruction of any controlled extinguishing agent is carried out only by the holder of an approval given by the Minister under regulation 306; and
10. must accept any surrendered controlled extinguishing agent that has been used, or appears to be intended for use in, fire protection equipment.
