

LIQUID LOAD – Laundry Detergent/ HE

DESCRIPTION

It is formulated for use in commercial laundries, hotels, motels, hospitals, nursing homes, retirement homes and other service establishments. LIQUID LOAD is a neutral liquid laundry detergent, remaining active in all water conditions. It helps to prevent the greying of fabrics by keeping soils in suspension. Also, it produces whiter whites and vivid colours and it is safe on all types of fabrics.

DIRECTIONS FOR USE

Use 2 to 8 oz (57 to 227 ml) of product per 50 lb (23 kg) of laundry at temperature of 140 to 160 °F (60 to 71 °C), with a low water level, during 8 to 10 minutes. Avoid contamination of food. All laundered fabrics and all surfaces subject to food contact must be rinsed with potable water before reuse.

INGREDIENTS

Water, surfactants, glycol ether, anti-redeposition agent, optical brightener.

SPECIFICATIONS REGULATIONS AVAILABLE SIZES

- Appearance : Clear liquid - TDG : Not regulated - 20 L - Concentrated pH / 1% : 6 - 8 / 6.5 - 7.5 –
