July 8, 2016

Ref: Gina Leary

Please feel free to use this letter as a strong reference of recommendation for your very professional company. Gina is very capable of handling numerous tasks and goes above and beyond to make sure everything gets done.

Needless to say, you and your company have resolved all of my billing problems from other so called professionals, and have kept my medical office solvent in these very difficult financial times.

I would highly recommend Gina Leary to any physician or mid-level provider in need of billing services, or credentialing services.

Please feel free to have any future clients call me as a professional reference.

Sincerely,

Steve Pribanich, M.D. FAAFP
