## 2023 plans

include finally building our small greenhouse and making a compost tumbling station for all to use with community educational information.

Putting in a grape arbor that we will use, this year, for vining veggies as the grapes will take a few years to take hold.

We lost some large shade trees so now we can plant a plot dedicated to edible plants that self-propagate each year in an Herb & Tea Garden (rhubarb, asparagus, onions, garlic, mint, chives, parsley, chamomile, lavender, rosemary, thyme, basil, edible violets, & nasturtiums are on the list this year.)

We also, have to at some point redo the church guttering on that side, and hope to put in a giant rain barrel that will feed the whole Herb & Tea Garden as well as the Flower Pick Gardens.

We also plan to expanding our Community Flower Picking Garden to the front of the church as we have already out grow the small plot near our parking lot.
