**TUFF-FOG SEAL**

Tuff-fog protects and extends asphalt pavement service life by protecting and restoring the surface oils, locking down the loose aggregates and preventing damage caused by oxidation, weather and traffic. Tuff-fog is an ideal choice to maintain residential streets, highway shoulders, asphalt pavements and chip seal surface treatments. High polymer content provides excellent film strength, bonding properties, excellent chip retention and provides UV, water and chemical resistant properties. Tuff-fog adds superior protection against traffic, oxidation and other environmental stresses.

**TUFFCOAT**

Tuffcoat is a premium high-performance emulsion-based asphalt seal coat consisting of an industry-leading aggregate blend, mineralogy, surface active agents and catalysts. This results in superior adhesion, flexibility and durability with unparalleled friction characteristics. It maintains high performance in all weather conditions. Tuffcoat boasts a 60% residue and weighs in at 11.44 pounds per gallon. Tuffcoat is an affordable asphalt preservation product that will add years to your pavement while increasing curb appeal. Tuffcoat is the time-tested work horse of asphalt sealers.

**TUFFCOAT P+**

Tuffcoat P+ is a premium high-performance/ high-density emulsion-based polymer asphalt surface treatment. Consisting of cutting edge polymers for added durability and added resistance to UV rays, oxidation, water and chemicals. Tuffcoat P+ incorporates industry leading aggregates providing unmatched mix stability, size gradation, hardness, mineralogy and chemical compatibility; resulting in unparalleled friction characteristics and life longevity of the fixative film that is Tuffcoat P+. Tuffcoat P+ is always manufactured and sold at 60% residual solids. Tuffcoat P+ leaves approximately **30% more** residual asphalt binder, polymer, minerals and aggregate than competing sealers when fully dehydrated.

**TUFF-BARRIER**

Tuff-Barrier is a non-fibered asphalt emulsion damp proofing product which is designed for damp proofing the exterior side of below-grade foundation and walls. This may be used on uncured or "green" and damp surfaces. Tuff-Barrier is cold applied, corrosion resistant and does not crack, alligator, run or sag.

**SS-1H + TRACKLESS TACK**

SS-1H Asphalt Binder is an asphalt emulsion designed for use as a tack coat for patching, paving and for coating processes. SS-1H Asphalt Binder promotes adhesion of bituminous concrete products and coatings. Other uses include primer, fog seal and dust control. Meets AASHTO M140, ASTM D977 and ISSA requirements for SS-1H when tested in accordance with ASTM D140, ASTM D244 and AASHTO T59.

**COLD PORE**

**ASPHALT COLD PATCH**

**OIL FLO SOLVENT CLEANER**

**HARDENED SPRAY TIPS**

**ASPHALT LOOTS, BROOMS, SQUEEGEES, ETC.**

**BILLY GOAT BLOWER, GRAZERS AND PARTS**
