

Montessori at home

Workshop

When it comes to implementing Montessori principles in the home, most parents are intrigued by the idea, but they aren't sure where to start. But it starts with a change in mindset.

As a parent/educator, you have to start by understanding that children — even the littlest ones — are capable of more than you realise. Once you acknowledge this, then you can make some changes around your home to set yourself and your child up for Montessori success.

We welcome you to come and join in an informative morning learning about the Montessori philosophy and curriculum. We will cover infants and toddler's introduction to Montessori, and the five areas to a Montessori classroom: Practical life, Sensorial, Math and Language and Culture.

This workshop will be held on Tuesday the 2nd April, from 9.30 – 11 am at the Harvard Community Centre in Wigram.

Address: Harvard Community Lounge, Wigram Village Green Corsair Drive, Wigram, Christchurch 8042

If you would like to join us, please confirm your attendance with Tanya or Ming at the office via WeChat/email or with either Jessie, Sarah or Jo at your next home visit. Children are welcomed to join, we will have some activities and crafts set up, also please come with any questions you may have, we will do our best to answer them.
