

HARVEST BELL

Our family farm is your family farm.

DIY Buckets

Congratulations on your upcoming wedding or event! DIY flowers from Harvest Bell are a great way to bring a creative, personal element to your wedding and to keep within a tighter budget. Whatever your reason for choosing DIY, you'll be getting beautiful, fresh, vibrant flowers, and can feel good that they're locally grown.

THE BASICS

DIY flowers are sold by the bucket, and each bucket contains between **50-65 stems** of focal flowers, accent flowers, and foliage – the perfect balance you need to make great arrangements. The specific types of flowers/foilage in each bucket will be chosen by the Harvest Bell farmers to ensure that you get the best flowers from the field for your day. The specific types of flowers in the buckets will depend on the changing seasons and the whims of Mother Nature.

AVAILABILITY AND PRICE

DIY buckets are only available during the height of our growing season, from late June through mid-October. **Buckets are \$70 each.** DIY flower buckets are only available for pick-up on the farm in Newbury. We encourage you to bring your own (sparkling clean!!!) buckets to transfer the flowers into, but you may borrow ours for a \$5 fee per bucket, which is refundable when you return the buckets to us.

ORDERING & PAYMENT

DIY buckets can be ordered here through call or email to let us know how many buckets you'd like and on which date (Tuesday – Saturday) you'd like to pick them up. Buckets must be paid for in full at the time of pick-up and refunds are not available once your order has been placed.
