

KRUEGER SENTRY GAUGE®

The Overfill Gauge—Type O

What it is:

Top mounted liquid overfill alert gauge. Bushing size can be 2" or 1.5". Gauges are custom made in house to fit your application. You determine your alarm level and tell us the length. This gauge is designed to only monitor a small portion at the top of the tank.

Additional Options - Not included:

Audible Alarm Accessory: This add on feature can turn your mechanical gauge into an audible Hi or Lo level alarm.

Replacement Parts -

O-Kit - Replaces all of the gauge components from the red lock nut and up. Includes: Red HDPE Plastic Nut, Duro Nitrile Gasket, Plastic Cellulose acetate inner and outer calibration.

OG-Kit-ALN - Replaces all of the gauge components from the red lock nut and up with upgraded parts. Includes: Aluminum Lock Nut, Duro Nitrile Gasket, Plastic Cellulose acetate outer calibration, Glass inner calibration.

Instructions for Operation:

This gauge is a simple visual tool. If the red indicator rises into the viewing window, it is indicating that your tank is near full. Once installed you simply view the calibration during filling to determine when your tank is near full. The indicator is not calibrated. It simply indicates overfill or not.

Example Application →

Krueger Sentry Gauge
1873 Siesta Lane
Green Bay, WI 54313
