

Sugar Cane Grab Loader

Model # GL2200

Engine: John Deere 4045T Engine 105 continuous HP @ 2200 RPM, 116 RATED HP @ 2200 RPM

Alternator: 120 Amp, 12 volts.

Axles: Outboard Planetary final drive. Rear Axle oscillating.

Electrical: Sealed maintenance free 960 cold cranking Amps; 12 volt direct electric starting.

Hydraulics: Machine Travel Heavy Duty Variable displacement pump from 0 to 28 GPM @2200 RPM, and fixed displacement motor; maximum system pressure 4500 PSI.

Loading Functions: Double pump 32 and 21 GPM @ 2200 RPM; maximum system pressure of 1800 PSI. Double Valve, making the functions of swing, flex and plier independent from grab and lift.

Power Steering: Rear wheel, hydrostatic.

Parking Brake: Mechanical caliper disk brake mounted on transmission.

Standard Equipment: Muffler; 23.1 – 26 Tires; boom, deluxe seat, push piler, canopy top, electric horn, lighting system, long reach retractable boom.

Transmission: Hydrostatically driven 4 range drop transmission giving infinitely variable speed in all of the ranges with dynamic braking of hydrostatic drive. Maximum speed of 25KPH in 4th gear
