

## New Part Numbers for W&H ADEC Chuck/Spindle/Impeller Combos

To simplify the ordering process, we have developed the following system.

Example: 70116LSYNEA Which breaks down to 3 components **70116** **L** **SYNEA**

What it means:

- 70116** All W&H ADEC combos will start with this number
- L** The "L" signifies "Large Head", an "S" in this position will signify "Small Head"
- SYNEA** This signifies that the handpiece is a Synea model

In addition, the above number can be followed by a "-A", "-S" or "LED", -SV, -B

- "-A" The -A signifies that it is a Timken combo
- "-S" The -S signifies that it is a Sable combo
- "-LED" The -LED signifies that it is one of the new LED models
