### PASSPORTS & VISAS

Please ensure your passport is valid for travel to the country you intend to visit. When visiting the USA it is not mandatory you have 6 months validity on your passport after your return date. However, it is advisable to check when your current passport is due to expire, and renew if necessary well in advance of your trip. If you hold a different passport please check with the consulate of the country you are travelling to. Additionally, when you are travelling to the USA, you must have a machine readable biometric passport.

If you need clarification of whether a visa is required for the country you intend to visit, please ask us at the time of booking. It is the responsibility of ALL passengers to ensure they have the correct visa(s) for their planned trip.

### ESTA – ELECTRONIC SYSTEM FOR TRAVEL AUTHORISATION

ESTA is a mandatory automated system that determines the eligibility of visitors to travel to the U.S. under the Visa Waiver Program. The ESTA application collects the same information collected on Form I-94W. ESTA applications may be submitted at anytime prior to travel, though it is recommended travelers apply when they begin preparing travel plans. This must be done by visiting the U.S. Department of Homeland Security's website at <https://esta.cbp.dhs.gov/esta> and answering all the relevant questions in order to submit your application for travel authorisation. The \$14.00 fee is payable on all new applications or renewals. All payments for electronic travel authorization applications must be made by credit card or debit card when applying for or renewing an ESTA.

### ETA – ELECTRONIC TRAVEL AUTHORISATION

ETA is a mandatory automated system that determines the eligibility of visitors to travel to Canada under their waiver program. Much like the ESTA, applications may be submitted any time prior to travel. This may be done by visiting the Canada government website at <http://www.cic.gc.ca/english/visit/eta.asp> and answering all the relevant questions in order to submit your application for travel authorisation. This program came into effect from March 15, 2016. The fee is \$7.00 per applicant and will cover travel to Canada for up to five years.

### SFPD - SECURE FLIGHT PASSENGER DATA

The Department of Homeland Security (DHS) in the United States has introduced a new data process to improve the travel experience for all airline passengers, including anyone who has been misidentified by security screenings in the past. Called Secure Flight, it means that we are required to provide your airline with minimum Secure Flight Passenger Data (SFPD) when booking, and at least 72 hours before you fly. The data simply includes: your name as it appears on your passport, date of birth, gender and a Redress Number if US Homeland Security has issued you one.

### APIS – ADVANCE PASSENGER INFORMATION SERVICE

The government of the United States now requires all airlines to collect Advance Passenger Information from passengers prior to travel. This data will be passed to the control authorities in the USA & Canada.

You must supply us with the following minimum information at least 72 hours before your flight's scheduled departure, or you can do it at the time of booking:

Given and last names (as they appear on the passport), gender, date of birth and redress number where applicable.

### What is a redress number?

The US Department of Homeland Security (DHS) runs a programme for travellers who have been repeatedly identified for additional screening and who would like to clarify the information held about them in the US DHS systems. The redress number is the reference number given to people who have applied to clarify their information through this programme, which is called DHS Travel Redress Inquiry Program (DHS TRIP).
