

Since creating these areas, we have seen a significant increase in many different types of animals. With great thanks to our staff and many volunteers, we have over 125 different species of plants, trees, birds and animals documented. Our appreciation also goes out to our volunteers from the community who played a crucial role in the implementation of our *Operation Pollinator* gardens. Through these gardens, we have also seen an increase in many pollinator species throughout the property.

Plant, Tree, Bird & Animal Species Documentation

Plants			Trees	Birds & Butterflies		Animals
Alder Buckthorn	C. Marsh Bedstraw	Honeysuckle-Morrow	Ash - American	Lepidoptera-N. Crescent	Black Throated Green Warbler	Beaver
