Please note...

ALL HAND AND FEET SERVICES INCLUDE A RUSSIAN MANICURE OR PEDICURE.

What is it?

a Technique that originated in Russia, a Russian manicure is a dry manicure, so no soaking in water is required. The technique consists of very precise cuticle work, often involving a e-file and other special equipment to clean and remove excess skin around the nail bed.

a Lot of fine detail is involved in the process, from the cuticle work to the painting of the nails and making sure the product applied to your nails is correctly structured. This is not your average manicure or pedicure service. It takes precision and time to perfect.

Time allocation can be as follows: (Depending on what needs to be done, this is just a general guideline.)

Prep :

30min - 60mins

Filing :

15min - 30mins

Structuring and painting :

60mins - 1hr 30mins
