## **SPOT CONTRACTS**

A 'buy now, pay now' deal for immediate delivery. This agreement is for you to buy currency at an agreed exchange rate.

If you are looking to purchase currency and make a payment immediately, then a spot contract could be perfect for you to take advantage of a favourable rate.

You can have a currency trader book a trade for you or using the online system you can book your own transfer very easily.

## **ONLINE PLATFORM**

Your online wallet is available anytime, anywhere. The platform has the latest exchange rates fed into it giving you access to live rates at all times.

## ***FORWARD CONTRACTS***

A Forward Contract is a way of locking in at a desired exchange rate to avoid any risk of movement in the future.

This is an agreement for you to buy currency on an agreed future date at a fixed exchange rate. This allows you to take advantage of a favourable rate at present for your future trade (for up to 1 year).

You can draw down on it whenever you need to. We will require a 5% deposit to secure this. This is not a fee but part of the transaction value.

## ***LIMIT ORDERS***

# FAQ

## ***IS THERE A COST TO DO A TRANSFER?***

At ELYSFX we won't charge you a thing outside of the actual exchange rate we quote. As well as seeing immediate savings by avoiding additional costs like transfer fees, you'll also get more for your money by securing a highly competitive exchange rate

## ***WILL I GET THE BEST EXCHANGE RATE?***

When you search for an exchange rate online you're usually seeing the interbank rate – a rate only available to major financial institutions.
