

NEW FAMILY OVERVIEW

Welcome to Caring Hearts for Children! We are a nonprofit agency that provides foster-to-adopt, adoption and kinship care services to boys and girls, ages birth through 17 years. We are excited to partner with the **New Frontier Training Academy**, a premiere foster care training service designed to help people like you navigate the journey toward becoming a licensed foster parent. Through this partnership, our goal is to make the development process as thorough and streamlined as possible by offering curriculum virtually and at convenient times throughout each month. Here's what you can expect in the coming months:

STEP 1:

- The family is referred to the New Frontier Training Academy by their Caring Hearts Developer
- The family should expect an email from their Developer with instructions

STEP 2:

- The family responds to the email from their Developer with dates/times for training sessions to attend

STEP 3:

- The family completes online training sessions
 - REMINDER: Families complete the tests in the PREPRINTED Training Packet provided by the Developer

STEP 4:

- The family should remain in contact with their Developer regarding any Caring Hearts-specific requirements

STEP 5:

- The Developer will pick up the PREPRINTED packet when all trainings are complete
- The Developer will collect any needed signatures from remote trainers and file the completed trainings in families' notebook accordingly
