

COMPANY INFO

For over 50 years we have been producing volume items and bespoke architectural and building supplies. Moulds are prepared by the in-house carpentry shop and casting is produced using aggregates from all over the country to reproduce the shading of natural stone, with other colours available to order.

We supply all sectors of the building industry for use on commercial, residential and private projects nationwide.

ABOUT CAST STONE

Cast Stone is a highly versatile material, suitable for period and contemporary styles. It complements a range of cladding materials, from brick, quarried natural stone and reconstructed stone to rendered finishes. Cast stone is regularly used internally and externally for newbuild, extensions and refurbishment projects, including areas of sensitive planning constraints or where quarried natural stone is a predominant material

COLOUR CHOICES

We stock a full range of stone colours. From Cotswold Stone to Welsh Grey

QUOINS

Cast Stone quoins make a feature of a corner, giving an impression of permanence and strength, and used to reinforce a structure.

PIER CAPS

A cast stone pier cap is the perfect compliment to a brick pillar. As well as protecting the brickwork from water it will provide a stunning visual feature.

COPINGS

Coping stones add the finishing touch to any wall. We offer a range of standard profiles to suit a wide variety of styles or ask about bespoke coping stones and colours.

SADDLESTONE

We produce traditional, saddlestone post bases for oak and timber buildings, porches or garages. All made to order from our workshop.

CILLS

Cast stone cills work superbly well with cast stone lintels to create a beautiful look to a property. Available in different varieties of colour and sizes.

CHIMNEY CAPPING

We produce various sizes of chimney caps, They work to protect the top of the chimney from erosion by rainwater.

CORBELS

Our range of standard cast stone corbels can be produced in various colours and can be made to your specific requirements.

LINTELS

All Hampton Cast Stone lintels are reinforced for self weight, handling purposes and structural use. Available in faced or rough cast finish.

NAME STONES

Name and date stones can be made in various colours and sizes and we can arrange for engraving to suit individual requirements.

BALL FINIALS

Cast Stone Ball Finials and Bases will compliment piers of all sizes. Please call to discuss your requirements and sizes.

BALUSTRADES

We manufacture various styles of balustrade systems and can produce cast stone balustrades in designs to match restoration projects, repairs and for use in commercial & residential projects.

DOOR SURROUNDS

With straight jambs and arched head, with bonded jambs and straight head with label moulding, or indeed made bespoke to individual requirements.

FIREPLACES

We manufacture a range of fireplaces these can be adapted to fit specific openings. Call us today to discuss your requirements.

WINDOW SURROUNDS

At Hampton Stone we make various styles of cast stone window surrounds or indeed we can make to your desired measurements or project.

FINISHES

Ask us about our range of rough/textured finishes we offer. We'll match any existing stone for listed or historic buildings.
