

WHAT IS THE AFG LOVE TRAIN?

The AFG Love Train is exactly that! A train car generously designed and built by Frank Naccarato Contracting with the aim and mission of traveling with Anthony around our city during the month of February as he spreads love and awareness for Williams syndrome.

We ask anyone who would like to “get on board” DM us and our train will travel to you! We encourage all participants to be silly “on this ride” as we stop for photo ops using some fun and creative props - and then we ask everyone to please post and tag the pictures to their social media.

The Love Train is a collaborative social media campaign- a FUNraiser where individuals and businesses unite to amplify the need for Williams syndrome awareness. Together, we can increase followers, spread love, and make a difference. Let’s create a ride of positive change in the digital world!

WHO'S ON BOARD???

Camille Fortunato (718) 744-7508 camille.fortunato@wsresearch.org
